COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964; EXECUTIVE ORDERS 11246 AND 11375; TITLE IX, 1973 EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; AND VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED IN 1974.

It is the policy of the Texas Education Agency to comply fully with the nondiscrimination provisions of all federal and state laws and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any programs or activities which it operates on the grounds of race, religion, color, national origin, sex, handicap, age, or veteran status (except where age, sex, or handicap constitute a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency makes positive efforts to employ and advance in employment all protected groups.

FOREWORD

The *Statistical Brief* report series is designed to provide timely statistical information on Texas public elementary and secondary education. Each report addresses a specific area and will be released as soon as possible after the data are officially added to the TEA Data Base. Education topics in this series include student enrollments and attendance, revenues and expenditures, professional personnel and salaries, and Foundation School Program information.

This report series is unique in two ways. First, the reports were designed to include information most frequently requested from the TEA Data Base. Those who need these data should find this series very useful. In addition, the *Statistical Brief* tables and text are computerized. This capability permits rapid update of the reports and will improve the accuracy of the report information.

The *Statistical Brief* reports are intended to meet the Texas public education information needs of education administrators, policymakers, researchers, and the general public. Although the basic nature of the information in the Statistical Briefs should meet the education data needs of the foreseeable future, the contents and format of the reports are flexible. Formats may be altered to meet the demand for new educational data as laws and State Board of Education rules are changed, new issues emerge, or the general need for information moves in a new direction. *Statistical Brief* users are encouraged to submit suggestions toward improving the reports.

Raymon L. Bynum
Commissioner of Education

SUPERINTENDENT'S ANNUAL REPORT
FOR PUBLIC ELEMENTARY AND SECONDARY SCHOOLS IN TEXAS
1980-81

I. INTRODUCTION

This report contains statistical information on attendance accounting data for Texas public elementary and secondary schools for the 1980-81 school year. Statistics used for this report were taken from the following Texas Education Agency report:

Superintendent's Annual Report, Parts I and II: 1980-81

Data were collected for this annual report for all students in Texas public elementary and secondary schools, by district during the 1980-81 school year.

Pupil attendance accounting data collected in the Superintendent's Annual Report (SAR), Part I, are used to determine the allocation of Foundation School Program funds to school districts. Authority for collection of these statistics is Section 21.252 of the Texas Education Code.

The data collected in SAR, Part II, are used for program management. Authority for collection of these statistics is Section 11.52(d) of the Texas Education Code.

This report presents summary and detailed statistical information for the 1,070 active school districts which had local taxing authority, and the 29 active districts which either had no local taxing authority or no property values.

II. SUMMARY DISCUSSION

Pupil Accounting Totals for Texas, 1980-81

There were over 3 million original entries in Texas public schools in the 1980-81 school year. Of these students, 99.6 percent were enrolled in Foundation School Program (FSP) districts, while the remaining 0.4 percent were enrolled in special statutory or state-administered districts.

These enrollment figures included almost 95,000 pupils who were reported as children of migrant workers and 337,000 handicapped pupils.

A total of 468 school districts showed a decrease in refined average daily attendance from 1979-80 to 1980-81. However, refined average daily attendance for the state increased 1.33 percent from the previous year.

Table II-1 lists various attendance accounting statistics for Texas public schools by district Foundation School Program status. This table also shows the number of active public school districts in Texas for the 1980-81 school year.

TOTALS INCLUDE ALL SCHOOL DISTRICTS.

SOURCE: TEA, SUPERINTENDENT'S ANNUAL REPORT, 1980-81

Pre-kindergarten consists of primarily special education students, whereas kindergarten is only funded on a half-day basis by the state, except for educationally handicapped students, which are funded for the full day. Attendance rates showed only slight upward fluctuations from the first through the fifth grades, but then decreased steadily through the ninth grade. An increase in attendance rates was seen in the tenth through the twelfth grades.

Graduates of Public Schools

Graduates from public secondary schools in Texas reached over 171,000 students in 1980-81. As Table II-3 shows, this figure represented 91.4 percent of the students enrolled in the twelfth grade during the 1980-81 school year.

Table II-3 presents statistical information on graduates as a percent of twelfth grade original entries, and on graduates planning to attend college as a percent of total graduates. These figures include totals from all active public school districts in Texas, for the school years 1970-71 through 1980-81.

1980-81	187,716	171,665	91.4	93,029	54.2

SOURCE: TEA, SUPERINTENDENT'S ANNUAL REPORTS, 1970-71 THRU 1980-81

The number of graduates as a percent of the total number of twelfth graders reached its highest point in 1974-75. The next school year showed a drop of about 3 percent, and the rate has fluctuated only slightly since then.

A slight decline in the percent of graduates who were planning to attend college was seen from 1970-71 until 1974-75, when less than half of the graduates from Texas public schools planned to attend college. This rate, however, showed a gradual increase beginning in 1976-77, until it reached 53 percent in the 1978-79 school year. After dropping again in 1979-80, the rate increased to 54.2 percent in 1980-81, the highest since 1971-72.

Special Language Program Enrollment

Special language programs exist in 420 districts in Texas. These programs fall into two categories. The first is the bilingual education program which is a full-time program of dual language instruction. This type of program exists in 220 public school districts in Texas. The second is the English language development program which consists of language development in English as a second language. This program is found in 379 districts in Texas. Table II-4 presents enrollment figures for these programs by grade level, for the 1980-81 school year.

TABLE II-4

× SAR SPECIAL LANGUAGE PROGRAM ENROLLMENT COUNTS REPRESENT ENROLLMENT FOR THE ENTIRE SCHOOL YEAR, WHEREAS LESA COUNTS REPRESENT THE NUMBER OF LESA STUDENTS AS OF MARCH 1.

SOURCE: TEA, SUPERINTENDENT'S ANNUAL REPORT, 1980-81

There were approximately 226,000 students with limited English speaking ability (LESA) in Texas public school districts in 1980-81. There were 65.4 percent of these students who were enrolled in bilingual education programs, and 32.8 percent who were enrolled in English language development programs. Of all LESA students, 98.1 percent took part in some form of special language program in Texas public schools in 1980-81. Students in the Spanish language category comprised 95.8 percent of the students enrolled in such programs. Special language programs above the level of grade five are funded locally, receiving no state bilingual funds.

Enrollment in bilingual education programs declined from the first through the twelfth grades, with the most noticeable drops in grades six and seven. Enrollment in English language development programs fluctuated from kindergarten through the fifth grade, and then increased sharply in the sixth and seventh grades. After that, enrollment dropped steadily through the twelfth grade.

III. DETAILED TABLES

Data used to prepare the Section II analysis are contained in this section. Each table presents the data in the manner described below.

TABLE	ORGANIZATION	DISTRICT COVERAGE	PAGE
III-1	TEA ANALYZE Report Categories	Regular FSP Districts Only	8
III-2	ESC Regions	All Active Districts	9
III-3	Regular FSP Districts with Estimated County Totals	Regular FSP Districts Only	10
III-4	Special Statutory and State Administered Schools	Special & State Districts Only	48
III-5	Historical State Totals 1970-71 to 1980-81	All Active Districts	49

NOTES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

ANALYZE report categories are district groupings used by TEA. See "Annotated Definitions of Terms" in the Addenda.

IV. ADDENDA

Superintendent's Annual Report - Historical Background and Data Considerations

The Superintendent's Annual Report, Part I, has undergone several major changes in recent years. In 1970-71, kindergarten pupils attending on a half-day basis became eligible for Foundation School Program (FSP) benefits. Minor changes in reporting kindergarten attendance have been made in the SAR since that time. In 1975-76, the definition of Refined ADA was changed to include all special education students. Also, data for special and vocational education full-time equivalent students were collected for school years 1975-76 and 1976-77 only.

In past years, original entries were divided into two categories: students entering Texas public schools for the first time during the current school year who had not previously entered schools of another state, and those who, during the current school year, had been enrolled in a school outside of Texas. However, beginning with the 1980-81 SAR, that distinction is no longer made. Original entries are now defined only as students entering Texas public schools for the first time during the current school year.

The Superintendent's Annual Report, Part II, has undergone changes almost every year. For example, beginning in 1979-80, pupils enrolled in the special language programs were reported in one of two categories. A pupil was enrolled in either an intensive bilingual education program or a language development program teaching English as a second language. Previously, bilingual education programs in the first through fifth grades were intensive programs in dual language instruction, and in the sixth through twelfth grades were language development programs. Enrollment figures for these programs were contained in one report. Also, an additional category containing the count of pupils with limited English-speaking ability was included in the 1980-81 SAR.

Information on school leavers, pupils who have left school during the school year prior to graduation and are not known to have enrolled in another school, is no longer available, beginning with the 1980-81 SAR.

Data for 1,099 active districts are presented in this report. However, Windham Schools did not report original entries for the 1980-81 school year. This accounts for apparent discrepancies in some state totals.

Annotated Definitions of Terms

ACTIVE SCHOOL DISTRICT: Any public school district which operates a school in the district each year. (See Section 19.246(b) of the *Texas Education Code*.)

ANALYZE REPORT CATEGORIES: Special district groupings of data used for TEA school finance policy analysis. These categories are defined as follows:

1. MAJOR URBAN DISTRICTS: The largest school district(s) located within the central city of each of the state's six largest Standard Metropolitan Statistical Areas (SMSA's), (i.e. Austin, Corpus Christi, Dallas/Fort Worth, El Paso, Houston, and San Antonio). SMSA's are defined by the U.S. Bureau of the Census.
2. OTHER CENTRAL CITY DISTRICTS: Districts which are considered by TEA to be the "most central" to the state's remaining SMSA's.
3. SUBURBAN-FAST GROWING DISTRICTS: Generally, suburban districts of 1,000 or more refined ADA which grew at least five percent (5%) from 1970-75 and some smaller suburban districts which displayed rapid growth for the same period.
4. SUBURBAN-STABLE DISTRICTS: Suburban districts which are similar to those in the previous category but which do not demonstrate high ADA growth rates.
5. NON-METRO WITH 1000+ ADA DISTRICTS: Districts which have 1,000 or more refined ADA and which are not included in the previous categories.
6. NON-METRO WITH TOWN DISTRICTS: Districts which have less than 1,000 ADA and which encompass a town having a population of approximately 1,000 or more.
7. RURAL DISTRICTS: Districts which have less than 1,000 ADA and which have no central town within their boundaries.

APPRAISED (PROPERTY) VALUE: The value of property on the district's tax roll, determined by the local tax assessor for the purpose of levying taxes. Appraised value is the basis for the assessed value. Ideally, appraised value should be the same as market value, but several practical and political factors usually prevent this. See MARKET (PROPERTY) VALUE.

ASSESSED (PROPERTY) VALUE: A valuation set upon property by the district as a basis for levying taxes. Assessed value is frequently an assigned percentage of appraised value, and this percentage is called the assessment level or assessment ratio.

AVERAGE DAILY ATTENDANCE (ADA): This general designation is used to refer to a group of attendance measures which include the following:

1. GROSS ADA: The aggregate days attendance divided by the number of days school is in session. Kindergarten pupils attending a half-day session earn a half-day's attendance for the school district.
2. REFINED ADA: The aggregate days attendance of eligible students divided by the number of days school is in session. Refined ADA is equal to gross ADA less ineligible ADA, and is used to determine the allocation of funds for state maintenance and operations, equalization aid, etc.
3. ADJUSTED REFINED ADA: The aggregate days of attendance divided by adjusted days of operations for the best five six-weeks reporting periods (four for migrant schools). Adjusted refined ADA is used only for personnel unit allocations.
4. INELIGIBLE ADA: Those students who do not meet the eligibility requirements set forth in the "Daily Register of Pupil Attendance". Generally, these are students who are non-residents or who are under or over the prescribed ages as of September 1.
    a. UNDERAGE:
        1.) Under 6 years old (Grade 1 and above) and not previously enrolled in an out-of-state school during the current school year.
        2.) Under 5 years old (kindergarten).
        3.) Under 3 years old (Special Education, Early Childhood Program).
        4.) From birth - Visually and Auditorially handicapped
    b. OVERAGE:
        1.) 21 years old (Regular Program).
        2.) 22 years old (Special Education).

AVERAGE DAILY MEMBERSHIP: The aggregate days of membership divided by the number of days school is in session.

BILINGUAL EDUCATION PROGRAM: A full-time program of dual language instruction having all of the following components:

1. The basic concepts initiating the child into the school environment are taught in the child's home language.
2. Language development is provided in the child's home language.
3. Language development is provided in English as a second language.
4. Subject matter and concepts are taught in the child's home language.
5. Subject matter and concepts are taught in English.
6. Specific attention is given to develop in the child self-assurance, confidence, and a positive identity with his/her cultural heritage.

COUNTY DISTRICT NUMBER: A six-digit TEA code which uniquely identifies each Texas school district. The first three digits identify the county in which the district administrative offices are located. The last three digits identify the type of district as follows:

000 thru 099 - Common School District
701 thru 799 - Rural High School District
901 thru 999 - Independent School District

EDUCATION SERVICE CENTER (ESC): A special intermediate level agency established to provide planning, coordination, and other special services to public school districts within a defined geographic region of Texas. (See Sections 11.32 and 11.33 of the Texas Education Code.)

ELEMENTARY SCHOOL: A school classified as elementary by local practice which provides instruction for students who are enrolled in any grade not above grade 8. This includes kindergartens and pre-kindergartens if they are under the control of the local board of education.

ENGLISH LANGUAGE DEVELOPMENT PROGRAM: A program which consists of language development in English as a second language.

FOUNDATION SCHOOL PROGRAM (FSP): A program of state government financial assistance created "to guarantee that each school district in the state has adequate resources to provide each eligible student a basic instructional program suitable to his educational needs." Under the FSP, eligible districts receive state aid for minimum salaries of personnel, current operating expenses, categorical program aid, and transportation services. The amount of state aid is based on the district's ability to support its public schools. (See Sections 16.002 and 16.004 of the Texas Education Code.)

INDEX (PROPERTY) VALUE: The full market value of property in a school district, less the difference between the full market value and the productivity value of land that qualifies for appraisal on the basis of its productivity. See MARKET (PROPERTY) VALUE.

LIMITED ENGLISH-SPEAKING ABILITY (LESA): Children "whose native tongue is a language other than English and who have difficulty performing ordinary classwork in English". (See Section 21.452 of the Texas Education Code.)

MARKET (PROPERTY) VALUE: The commonly accepted definition of market value is the price, in terms of money, which a property will bring if placed on the market for a reasonable time, with both the buyer and seller being aware of all its uses, and neither the buyer nor the seller under any stress or duress to buy or sell.

For Texas school districts, Taxable Market Value is the market value of tangible property, less exemptions lawfully granted by the district, determined by the State Property Tax Board in a biennial study in accordance with Subchapter F of Chapter 11 of the Texas Education Code. Taxable market value is the basis for the full market value and index value used by the Texas Education Agency for calculation of a district's local fund assignment.

ORIGINAL ENTRIES: The number of pupils entering Texas schools for the first time during the current school year.

PUBLIC SCHOOL CAMPUS: An administrative unit of a public school district which serves students enrolled in a limited number of grades and which usually has its own grounds, buildings, and other facilities.

PUBLIC SCHOOL DISTRICT: A governmental jurisdiction created under state law for the general purpose of providing an education to all eligible students who enroll in its schools or educational programs. (See Chapter 19 of the Texas Education Code.)

"REGULAR FOUNDATION SCHOOL PROGRAM (FSP) " PUBLIC SCHOOL DISTRICT: A district created under general statutory authority which is eligible for state funding assistance under the Foundation

School Program. These districts have geographic boundaries with corresponding property values, as well as taxing authority. They are administered by a locally elected school board.

SECONDARY SCHOOL: A school which provides instruction for students enrolled in any grade beginning with the next grade following the elementary school and ending with or below grade 12. This includes junior high schools, high schools, and vocational or trade high schools.

SPECIAL POPULATION EDUCATION: Programs designed to meet the special educational needs of limited pupil populations, for example, the handicapped, limited English speaking, educationally disadvantaged, etc.

"SPECIAL STATUTORY" PUBLIC SCHOOL DISTRICT: A district created by special legislative act but not administered by a state government agency. Examples of this type of district are the public schools associated with military bases near San Antonio and the Masonic Home schools in Fort Worth.

"STATE ADMINISTERED" PUBLIC SCHOOL DISTRICT: A district created by legislative act which is both funded and administered by a state government agency. Most of these schools are administered by the Texas Department of Mental Health and Mental Retardation, or the Texas Youth Council. In addition, the Department of Corrections operates the Windham Schools and the University of Texas System operates Moody ISD which is associated with the UT Medical Branch Hospital in Galveston. The State Schools for the Deaf and Blind have been under the Texas State Board of Education, but will be under control of independent boards beginning in the 1981-82 school year.

TAX RATE: The rate of taxation. When multiplied by the property value, it yields the amount of taxes levied by the school district. Usually given in the form of a rate per $100 property value. The tax rate set by the district is called the nominal tax rate because it is multiplied by the assessed value. An effective tax rate, often used for comparison purposes, can be computed as the tax rate required to raise the same levy based upon another property value, such as the appraised or full market value.

Example: A district reports an assessed value of $63,000,000 and an assessment ratio of 90 percent, indicating a total appraised value of $70,000,000. It sets a nominal total tax rate of $1.700 per $100 assessed value. Thus the total tax levy is $1.700 times one-hundredth of $63,000,000, equal to $1,071,000. An effective total tax rate based on the appraised value is therefore $1.530, because $1.530 times one-hundredth of $70,000,000 also equals the total tax levy of $1,071,000.

This district's index value for local fund assignment purposes is $76,500,000. An effective total tax rate based on this index value is then $1.400, since $1.400 times one-hundredth of $76,500,000 equals $1,071,000.

Explanation of Abbreviations

ADA - Average Daily Attendance
ADM - Average Daily Membership
CSD - Common School District
ESC - Education Service Center
FSP - Foundation School Program
FTE - Full Time Equivalent
ISD - Independent School District
K - Kindergarten
LESA - Limited English Speaking Ability
PK - Pre-Kindergarten
RHSD - Rural High School District
SAR - Superintendent's Annual Report
SMSA - Standard Metropolitan Statistical Area
TEA - Texas Education Agency

Technical Notes

COUNTY ESTIMATES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

ROUNDING ERRORS: All percentage calculations have been rounded to a single decimal place. Consequently, table percentages may not sum to exactly 100.0 percent.

Statistical Brief Special Tabulations

The TEA Division of Information Analysis may be able to provide data users with special tabulations or computer tapes based on the same data used in Section III of this report. Inquiries about special tabulations or computer tape files should be addressed to:

Texas Education Agency
Director
Division of Information Analysis
201 East Eleventh Street
Austin, Texas 78701

All services and/or materials are provided to the requestor at cost. Estimates will be provided upon request.

Austin, Texas 78701

RES-003-1R81

INSTRUCTIONS FOR COMPLETING TABLES I AND II, SUPERINTENDENT'S ANNUAL REPORT — PART I

TABLE I

1. Complete lines A1 through E by utilizing, by grade, the sum of all comparable lines on each of the Principal's Term Reports of the school district. These data must equal the sum of all data recorded in the Daily Register of Pupil Attendance or other such equivalent record. Also, the table must be mathematically correct, and care must be taken to follow the equations shown on applicable lines. For example, line A4, total enrollment, must be equal to line A2, total original entries for all ages, plus line A3, reentries. Definitions for ineligible enrollment, handicapped enrollment, and migrant enrollment appear in the instructions in the Daily Register of Pupil Attendance, and are to be used consistently on all pupil attendance accounting records, including the Principal's Period Report, the Principal's Term Report, and the Superintendent's Annual Report, Part I.

2. Complete only the total column for line F, by dividing line E, eligible migrant children, by line C, eligible enrollment. If line F calculates to 10% or more of eligible enrollment, the school district qualifies as a migrant school for Foundation School Program funding purposes, and the two lowest six weeks reporting periods are to be deducted from refined ADA.

TABLE II

1. Complete lines G1 through G4 by utilizing the Principal's Term Reports for the school district in the same manner as described above for lines in instruction #1 for Table I. If the number of days of operations vary between six weeks reporting periods for grades within the district (i.e. grade 4 on campus A had 30 days for the first six weeks period, and grade 4 on campus B had 29 days for the first six weeks period), a separate Table II for line G1 through G4 must be prepared for each variance, and a district wide combined Table II reflecting data on lines G1 through G4 will be used to determine the lowest six week reporting period(s) for the school district.

2. The lowest refined average daily attendance figure appearing on line G4 constitutes the lowest six weeks reporting period for the school district, and the appropriate block in line H is to be checked accordingly. Complete lines H1 and H2 by utilizing corresponding data recorded on the Principal's Period Reports for the period checked on line H for the school district. If there is a variance in a grade in the number of days of operations (line H1), separate Tables II, III, and IV must be submitted for each variance.

3. The second lowest refined average daily attendance figure appearing on line G4 constitutes the second lowest six weeks reporting period for the school district. The appropriate block on line I is to be checked ONLY IF THE TOTAL COLUMN ON LINE F, TABLE I, IS 10% OR MORE, and line I1 and I2 are to be completed ONLY IF A BLOCK IS CHECKED on line I. If the total column on life F is less than 10%, lines I, I1, and I2 are to be left blank.

4. Complete lines J1 through J3 by utilizing the Principal's Term Reports for the school district in the same manner as described for lines in instruction #1 for Table I. If there is a variance in a grade in the number of days of operations on any of the lines J1 through J3, separate Tables II, III, and IV must be submitted for each variance.

See reverse side of Tables III and IV for instructions.

County-District Number

TABLE I Entries and Enrollment	Age as of Sept. 1	Pre-Kindergarten	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Annual Totals
A Original entries, reentries, and total enrollment																
A1 Pupils entering a Texas public school district for the first time during the current school year, those pupils coded "O" (original entries)	Under 5

	22 & Over															
A2 Total original entries (all ages)																
A3 Reentries, those pupils coded "R"																
A4 Total enrollment (A2 + A3)																
A5 Changes (code C)																
A6 Withdrawals (code W)																
A7 Membership (A4 + A5 − A6)																
B Number of totally ineligible pupils (original entries and reentries)																
C Eligible enrollment (A4-B)																
D Eligible handicapped children (code "H")																
E Eligible migrant children (code "M")																
F Percent of eligible migrant children (E ÷ C). If 10% or more, complete lines I1, I2 and P2																

See reverse side of Tables III and IV for instructions.

TABLE II Determination of attendance during two six weeks periods and days of operations	First Reporting Period		Second Reporting Period		Third Reporting Period		Fourth Reporting Period		Fifth Reporting Period		Sixth Reporting Period		Annual Totals
G Summary of attendance by six week periods	PK-Grade 11	Grade 12	PK-Grade 11	Grade 12	PK-Grade 11	Grade 12	PK-Grade 11	Grade 12	PK-Grade 11	Grade 12	PK-Grade 11	Grade 12	
G1 Number of days of operations													
G2 Refined aggregate days attendance													
G3 Refined average daily attendance (G2 ÷ G1)													
G4 Refined average daily attendance (all grades)													

	Pre-Kindergarten	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Totals PK-Grade 11	Grade 12	Annual Totals
H Lowest six weeks period attendance check one: 1st 6 wks, 2nd 6 wks, 3rd 6 wks, 4th 6 wks, 5th 6 wks, 6th 6 wks																
H1 Number of days of operations																
H2 Refined aggregate days attendance																
I Second lowest six weeks period attendance check one only if line F is 10% or more: 1st 6 wks, 2nd 6 wks, 3rd 6 wks, 4th 6 wks, 5th 6 wks, 6th 6 wks																
I1 Number of days of operations if line F is 10% or more																
I2 Refined aggregate days attendance if line F is 10% or more																
J Days of operations																
J1 Number of days of operations for the year																
J2 Number of days of operations for low six weeks periods (H1 + I1)																
J3 Adjusted number of days of operations (J1-J2)																

County-District Number

See instructions below.

TABLE III Schedule of Aggregate Days	Pre-Kindergarten	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Totals PK-Grade 11	Grade 12	Annual Totals
K Aggregate days membership for the year																
L Aggregate days absent for the year																
M Aggregate days attendance for the year (K-L)																
N Ineligible aggregate days attendance for the year																
O Refined aggregate days attendance for the year (M-N)																
P Refined aggregate days attendance during low six weeks periods																
P1 Lowest six weeks period aggregate days attendance (Table II, Line H2)																
P2 Second lowest six weeks aggregate days attendance (Table II, Line I2)																
P3 Total low periods aggregate days attendance (P1 + P2)																
Q Adjusted refined aggregate days attendance (O-P3)																

See instructions below.

TABLE IV Membership and Attendance Averages	Pre-Kindergarten	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Totals PK-Grade 11	Grade 12	Annual Totals
R Average daily membership (K ÷ J1)																
S Gross average daily attendance (M ÷ J1)																
T Refined average daily attendance (O ÷ J1)																
U Adjusted refined average daily attendance (Q ÷ J3)																
V Percent of attendance (M ÷ K)																

INSTRUCTIONS FOR COMPLETING THE ABOVE TABLES III AND IV AND GENERAL INSTRUCTIONS

Note: **Tables I and II appear on the separate enclosed schedule, and they must be completed first. Instructions for completion of these tables appear on the back of this form for Tables III and IV.**

TABLE III

1. Complete lines K through O by utilizing, by grade, the sum of all comparable lines on each of the Principal's Term Reports for the school district. These data must equal the sum of all data recorded in the Daily Register of Pupil Attendance or other such equivalent record. Also, the table must be mathematically correct, and care must be taken to follow the equations shown on applicable lines. For example, line M, aggregate days attendance for the year, must be equal to line K, aggregate days membership for the year, minus line L, aggregate days absent for the year.

2. Complete lines P1 and P2 by posting appropriately the figures recorded in Table II on lines H2 and I2. Line P2 is to be completed ONLY IF LINE F, TABLE I IS 10% OR MORE. If line F on Table I is less than 10%, line P2 is to be left blank. Complete line P3, total low periods aggregate days attendance, by adding lines P1 and P2. If line P2 is left blank, line P3 must nevertheless be completed, and it must be the same as line P1.

3. Complete line Q, adjusted refined aggregate days attendance, by subtracting line P3, total low periods aggregate days attendance, from line O, refined aggregate days attendance for the year.

TABLE IV

1. Complete lines R through U by following the equations shown on each line. In other words, the appropriate lines K, M, and O in Table III, are to be divided by line J1, Table II, number of days of operations for the year, and line Q in Table III is to be divided by line J3, Table II, adjusted number of days of operations. Accuracy of Table IV is very important, as much of the financial support allocated to the school district by the State is based upon these figures.

2. Complete only the total column for line V, percent of attendance, by dividing line M, Table III, aggregate days attendance for the year, by line K, Table III, aggregate days membership for the year.

GENERAL INSTRUCTIONS FOR ALL TABLES OF PART I OF THE SUPERINTENDENT'S ANNUAL REPORT

1. Check all tables for accuracy and completeness. Make sure that the front cover has been signed by the superintendent.

2. Submit the entire report to the Texas Education Agency per the instructions on the front cover.

3. Retain a copy of this report and all supporting documents (i.e. absence reports from teachers, the Daily Register of Pupil Attendance or its equivalent, the Principal's Period Report, and the Principal's Term Report) for at least five years.

Superintendent's Annual Report
Part II
1980-1981

Authority for Data Collection: Texas Education Code, Section 11.52 (d)

Planned Use of Data: General reference and program management.

Instruction: Please complete all of this report. The information requested is a compilation of the data from the Principal's Term Report. Please complete in accordance with the instructions on the following pages. This report must be received by the Texas Education Agency on or before June 15, 1981. Payment of the superintendent's salary for the month of June, or the last month of employment previous to this date, will depend upon a receipt being issued by the Texas Education Agency. Contact William Jay at (512) 475-6234 if help is needed in completing this form.

Typed Name of Contact Person	Telephone No.

This report is true and correct to the best of my knowledge and belief.

Typed Name of Superintendent	Telephone No.	Date	

Signature of Superintendent

By June 15, 1981, return one copy to:

TABLE II DRIVER EDUCATION INFORMATION

District Name ____________ Co.-Dist. No. ____________

PROGRAM INFORMATION ON THIS REPORT IS REQUESTED FOR THE PERIOD FROM JUNE 1 OF THE PREVIOUS YEAR TO MAY 31 OF THE CURRENT YEAR.

(DO NOT INCLUDE SERVICE CENTER PERSONNEL IN ITEMS 1 AND 2.)

1. Total number of certified teachers teaching driver education ____________

2. Total number of state-approved teaching assistants teaching driver education ____________

3. Indicate total amount of tuition fee (if any) charged for driver education instruction given:
   a. During regular school year $____________ Classroom ____________ *Laboratory
   b. During summer ____________ Classroom ____________ Laboratory

4. Indicate number of students completing each phase of instruction:

		Classroom	Simulation	**Multiple-Car Range	Behind the Wheel	***Motorcycle Rider Course
During school year	a					
During summer	b					
TOTALS	c					

5. Please check the appropriate box to indicate the time period when each phase of driver education is scheduled.

		Regular School Day	Before School	After School	Weekend	Summer
Classroom	a	☐	☐	☐	☐	☐
Simulation	b	☐	☐	☐	☐	☐
Multi-Vehicle Range	c	☐	☐	☐	☐	☐
In-Car	d	☐	☐	☐	☐	☐

6. Total number of students enrolled in driver education eligible for foundation funds. Count each student only once. It is not necessary for a student to complete any portion of the driver training program to be counted for foundation school purposes.......... ____________

*Laboratory instruction includes simulation, in-car, and multiple-car driving range instruction.
**A multi-vehicle range is an off-street area on which one instructor directs students in several vehicles simultaneously.
***Count only students who complete courses approved by the Texas Department of Public Safety.

TABLE III SPECIAL LANGUAGE PROGRAM INFORMATION

District Name ____________

Co.-Dist. No. ____________

1. ENTER THE NUMBER OF CHILDREN ACCORDING TO GRADE LEVEL AND LANGUAGE CLASSIFICATION WHO HAVE BEEN IDENTIFIED BY MARCH 1 AS BEING ENROLLED IN THE SCHOOL DISTRICT AND AS HAVING LIMITED ENGLISH-SPEAKING ABILITY. (**Children of limited English-speaking ability** [LESA children] means children whose native tongue is a language other than English and who have difficulty performing ordinary class work in English, Section 21.452, Texas Education Code.)

COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964; EXECUTIVE ORDERS 11246 AND 11375; TITLE IX, 1973 EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; AND VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED IN 1974.

It is the policy of the Texas Education Agency to comply fully with the nondiscrimination provisions of all federal and state laws and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any programs or activities which it operates on the grounds of race, religion, color, national origin, sex, handicap, age, or veteran status (except where age, sex, or handicap constitute a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency makes positive efforts to employ and advance in employment all protected groups.

Division of Information Analysis

BRIAN L. WILSON, Director
RICHARD J. WILLIFORD, Systems Analyst II

This *Statistical Brief* was produced by RICHARD J. WILLIFORD, who wrote the analysis and addenda sections as well as the computer programs which generated the tables, charts, and text.

FOREWORD

The *Statistical Brief* report series is designed to provide timely statistical information on Texas public elementary and secondary education. Each report addresses a specific area and will be released as soon as possible after the data are officially added to the TEA Data Base. Education topics in this series include student enrollments and attendance, revenues and expenditures, professional personnel and salaries, and Foundation School Program information.

This report series is unique in two ways. First, the reports were designed to include information most frequently requested from the TEA Data Base. Those who need these data should find this series very useful. In addition, the *Statistical Brief* tables and text are computerized. This capability permits rapid update of the reports and will improve the accuracy of the report information.

The *Statistical Brief* reports are intended to meet the Texas public education information needs of education administrators, policymakers, researchers, and the general public. Although the basic nature of the information in the *Statistical Briefs* should meet the education data needs of the foreseeable future, the contents and format of the reports are flexible. Formats may be altered to meet the demand for new educational data as laws and State Board of Education rules are changed, new issues emerge, or the general need for information moves in a new direction. *Statistical Brief* users are encouraged to submit suggestions toward improving the reports.

Raymon L. Bynum
Commissioner of Education

FALL SURVEY OF STUDENTS IN TEXAS PUBLIC ELEMENTARY AND SECONDARY SCHOOL DISTRICTS
1980-81

I. INTRODUCTION

This report contains statistics on students by ethnicity, sex and grade collected during the fall of the 1980-81 school year by the following TEA report:

Fall Survey of Pupils in Membership, Fall 1980

The statistical universe for this annual data collection is all students in membership in Texas public elementary and secondary schools on the last day of the first six weeks attendance period.

The number of public districts actively operating schools in 1980-81 was 1,099. This Statistical Brief presents information reported for all active districts.

Principal authority for collection of fall membership data is Civil (Court) Action 5281. These data are also used to complete reports requested under the National Center for Education Statistics Common Core of Data (CCD) program (20 U.S.C. 1221e-1).

Fall Survey student data are routinely used for TEA planning and decision making. They are also used to estimate the number of students to be tested by the Texas Assessment of Basic Skills (TABS) program each spring.

II. SUMMARY DISCUSSION

Fall Survey data indicate a decline in the number of white students and a rapid increase in the number of minority students from 1970-71 to 1980-81. The data also show an uneven distribution of minority students among the state's public school districts.

Fall Membership Ethnicity by FSP District Status, 1980-81

Texas public school districts reported 2.9 million students in membership in the fall of the 1980-81 school year. Regular Foundation School Program (FSP) districts reported the majority of the students with special statutory and state-administered districts accounting for 19,000 students or about 1 percent of the total.

Table II-1 summarizes the 1980-81 fall student count for ethnic categories by type of district.

TABLE II-1

FALL SURVEY STUDENT COUNT
BY DISTRICT FOUNDATION SCHOOL PROGRAM (FSP) STATUS
AND BY STUDENT ETHNICITY
1980-81

Foundation School Program (FSP) District Status	Number of Active Districts	Membership					
		Total	Ethnicity				
			White, not of Hispanic Origin	Hispanic	Black, not of Hispanic Origin	Asian or Pacific Islander	American Indian or Alaskan Native
Regular FSP	1,070	2,880,455	1,625,495	792,575	428,111	30,043	4,231
Special Statutory	6	4,549	3,195	661	567	107	19

Fall Survey Student Ethnicity and Sex by Grade Level, 1980-81

State total student ethnicity and sex by grade level are presented in Tables II-2a and II-2b. Elementary grades PK-8 reported 71 percent of public school students, while high school grades 9-12 accounted for the remaining 29 percent. First grade reported the highest percent minority students (nearly 50 percent) in 1980-81.

Changes in Fall Membership, 1970-71 to 1980-81

Table II-3 presents student ethnic count and percent data contrasting 1970-71 with 1980-81. Minority groups grew by nearly 270,000 students, while the number of white students declined by nearly 81,000. The net total increase from 1970-71 to 1980-81 was nearly 189,000 students. Hispanic increases alone accounted for eight out of 10 minority students added during this period. Annual changes in membership by ethnic group are shown in Figure II-1.

The count of Asian students reported in 1980-81 was approximately seven times the figure reported in 1970-71. The American Indian student count grew by roughly a third over the same period.

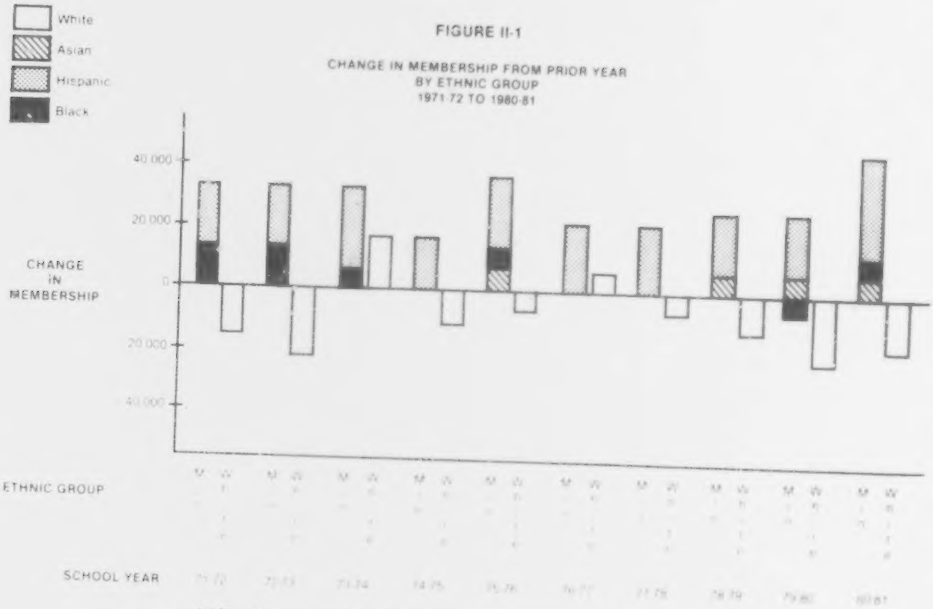
As a result of rapid growth in the number of minority students and slow but steady decline in the number of white students, the proportion of minority students reached 44 percent in 1980-81, a net increase of 7 percent over 1970-71.

Recent Changes in Fall Membership

The number of 1980-81 students in membership increased 26,700 over the prior year. Hispanics increased by 33,000, while the white category declined by 16,000. The number of blacks remained relatively stable, while the number of Asians increased 7,000.

FIGURE II-1

CHANGE IN MEMBERSHIP FROM PRIOR YEAR
BY ETHNIC GROUP
1971-72 TO 1980-81

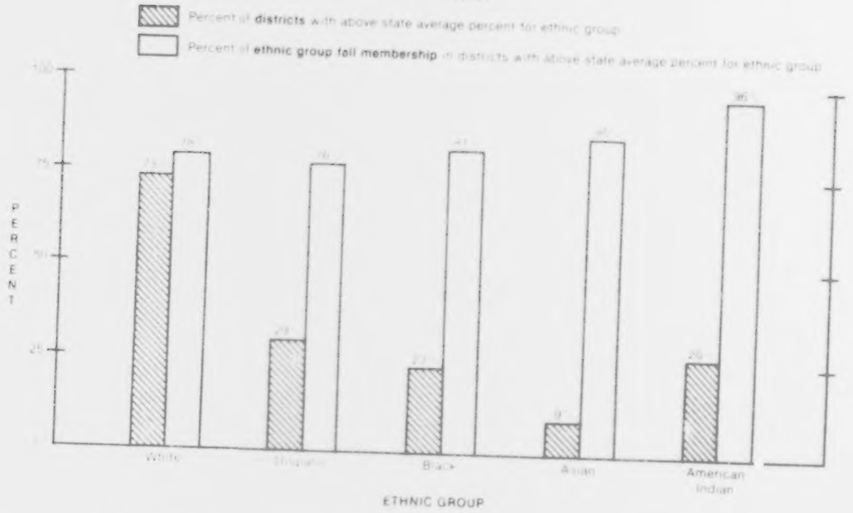


NOTE: Min — Minority (all groups other than white). Annual changes for some ethnic groups were too small to be shown on this chart.

Source: TEA, Fall Survey of Pupils in Membership, Fall 1980

FIGURE II-2

PERCENT OF FALL MEMBERSHIP AND SCHOOL DISTRICTS
WITH ABOVE STATE AVERAGE ETHNIC GROUP PERCENT
BY ETHNIC GROUP
1980-81



Example interpretation: Twenty-nine percent of the school districts have above average percentage of hispanic membership. These districts contain 76 percent of all hispanic students.

Source: TEA, Fall Survey of Pupils in Membership, Fall 1980

The Hispanic category grew by approximately 20,000 each year between 1969-70 and 1979-80. The abnormal 1980-81 increase can be attributed to Justice Lewis Powell's court ruling that tuition-free education be provided to children of undocumented aliens.(1)

Distribution of Ethnic Membership in Texas Public School Districts, 1980-81

White and minority students were not as a whole evenly distributed among the state's public school districts in 1980-81. Overall, seven out of 10 districts had above average concentrations of white students and below average concentrations of minority students. Minority students were concentrated in relatively few districts. Table II-4 shows that 35 districts reported no minority students, while nine districts reported no white students. Figure II-2 shows that more than three out of four white students attended districts which had a percent of white students higher than the statewide average. Nearly 605,000 Hispanics were counted in just 315 of the 1,099 reporting districts. About 350,000 blacks were concentrated in only 252 districts.

TABLE II-4

COUNT AND PERCENT OF TEXAS PUBLIC SCHOOL DISTRICTS
WITH NO STUDENTS FOR ETHNIC GROUP SHOWN
1980 - 81

Districts Which Reported	Districts	
	Number	Percent
TOTAL, Public Districts	1,099	100.0
No White Students	[illegible]	[illegible]
No Minority Students	[illegible]	[illegible]
No Hispanic Students	[illegible]	[illegible]
No Black Students	[illegible]	[illegible]
No Asian Students	[illegible]	[illegible]
No American Indian Students	[illegible]	[illegible]

NOTE: See Tables III-1 and III-4.1 [illegible] correspond to the categories shown above.

SOURCE: TEA, Fall Survey of Pupils in Membership, Fall 1980.

Asian and American Indian students, though fewer in number than Hispanics or blacks, were even more concentrated. More than 25,000 Asian students were in membership in only 98 districts, while nearly all of the small American Indian student population was concentrated in slightly more than a fourth of the public school districts.

Table III-1 gives student counts for various school finance reporting categories. This table indicates that the two largest minority groups, Hispanics and blacks, had above statewide average concentrations in large urban districts. White student concentrations were well above the statewide average in suburban and rural districts and districts with less than 1,500 in average daily attendance (ADA).

---

(1) In response to a questionnaire on the issue, 366 districts reported that 11,000 undocumented aliens entered school on or before September 19, 1980. This count is believed to represent primarily pupils entering Texas public schools for the first time and excludes most undocumented aliens admitted in prior years.

III. DETAILED TABLES

Data used to prepare the Section II analysis are contained in this section. Each table presents the data in the manner described below.

TABLE	ORGANIZATION	DISTRICT COVERAGE	PAGE
III-1	TEA ANALYZE Report Categories	Regular FSP Districts Only	8
III-2	ESC Regions	All Active Districts	9
III-3	Regular FSP Districts with Estimated County Totals	Regular FSP Districts Only	10
III-4	Special Statutory and State-Administered Schools	Special & State Districts Only	48
III-5	Historical State Totals 1970-71 to 1980-81	All Active Districts	49

NOTES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

ANALYZE report categories are district groupings used by TEA. See "Annotated Definitions of Terms" in the Addenda.

Totals include Regular FSP, Special and State Districts.

IV. ADDENDA

Historical Background and Data Considerations

The Fall Survey of student membership was started in the fall of the 1968-69 school year. Several major changes to the report have occurred since then:

1. Teacher data, collected on the first Fall Surveys, were no longer collected after the 1972-73 school year. (See the Statistical Brief on sex and ethnicity of professional personnel, SB81PSE, for teacher data comparable to student data contained in this report.)

2. Reference names for the five major ethnic categories were changed. (See Table II-3 for both old and current ethnic category names.)

3. A count of students by sex was added to the Fall Survey beginning with the 1976-77 school year. When the category of sex was removed from the Superintendents Annual Report (SAR) beginning with the 1979-80 school year, Fall Survey became the only TEA data collection containing a count of Texas public school students by sex.

4. In an attempt to improve the accuracy of Fall Survey data, districts were instructed, starting with the 1980-81 school year, to report membership as of the last day of the first six weeks period. As the "Instructions" section of the Specimen Document shows, the definition of "membership" was also tied to the definition used in the SAR, ensuring to a large extent that districts would use equivalent procedures for counting students.

5. The grade level categories "Special Education" and "Ungraded" were used on Fall Survey from 1968-69 through 1975-76. Beginning in 1976-77, districts were required to report all students in a specific grade level from pre-kindergarten through grade 12.

   Although special education students can be identified by grade level on the Fall Survey, they are combined with regular program students in the sex and ethnicity counts. (See the Fall Survey specimen document elsewhere in this Addenda.)

Several considerations apply to this report:

1. Although data are presented at the school district level of detail in Tables III-3 and III-4, Fall Survey information is collected by grade level for each school campus.

2. All students were assigned by school district personnel to one of the major ethnic categories, regardless of whether any of the categories was appropriate to a given student.

3. As a result of refinement in specific definition of students to be counted on Fall Survey, some comparability exists between Fall Survey and SAR. The following comments apply to such comparisons:

   A. Fall Survey membership is the cumulative result of entries, changes and withdrawals from the first day of classes through the last day of the first six weeks attendance period. SAR membership, on the other hand, is a similar accumulation through the last day of regular classes for the school year.

   B. Windham Schools (see Table III-4) normally reports Fall Survey membership but does not report SAR membership.

   C. Pre-kindergarten students participating in "Special Population" programs are not reported on Fall Survey, though some are reported as "Ineligible" students on SAR.

Annotated Definitions of Terms

ACTIVE SCHOOL DISTRICT: Any public school district which operates a school in the district each year. (See Section 19.246(b) of the Texas Education Code.)

ANALYZE REPORT CATEGORIES: Special district groupings of data used for TEA school finance policy analysis. These categories are defined as follows:

1. MAJOR URBAN DISTRICTS: The largest school districts located within the central city of each of the state's six largest Standard Metropolitan Statistical Areas (SMSA's); i.e., Austin, Corpus Christi, Dallas-Fort Worth, El Paso, Houston, and San Antonio. SMSA's are defined by the U.S. Bureau of the Census.

2. OTHER CENTRAL CITY DISTRICTS: Districts which are considered by TEA to be the "most central" to the state's remaining SMSA's.

3. SUBURBAN-FAST GROWING DISTRICTS: Generally, suburban districts of 1,000 or more refined ADA which grew at least 5 percent from 1970-75 and some smaller suburban districts which displayed rapid growth for the same period.

4. SUBURBAN-STABLE DISTRICTS: Suburban districts which are similar to those in the previous category but which do not demonstrate high ADA growth rates.

5. NON-METRO WITH 1000+ ADA DISTRICTS: Districts which have 1,000 or more refined ADA and which are not included in the previous categories.

6. NON-METRO WITH TOWN DISTRICTS: Districts which have less than 1,000 ADA and which encompass a town having a population of approximately 1,000 or more.

7. RURAL DISTRICTS: Districts which have less than 1,000 ADA and which have no central town within their boundaries.

CORRECTIONAL INSTITUTION: A state facility provided for the rehabilitation of adult or juvenile offenders. In Texas, adult offenders are interred in Department of Corrections prison units, while juvenile offenders are placed in Texas Youth Council centers.

COUNTY DISTRICT NUMBER: A six-digit TEA code which uniquely identifies each Texas school district. The first three digits identify the county in which the district administrative offices are located. The last three digits identify the type of district as follows:

000 thru 099 - Common School District
701 thru 799 - Rural High School District
901 thru 949 - Independent School District

EDUCATION SERVICE CENTER (ESC): A special intermediate level agency established to provide planning, coordination, and other special services to public school districts within a defined geographic region of Texas. (See Sections 11.32 and 11.33 of the Texas Education Code.)

ELEMENTARY SCHOOL: A school classified as elementary by local practice which provides instruction for students who are enrolled in any grade not above grade 8. This includes kindergartens and pre-kindergartens if they are under the control of the local board of education.

ETHNIC GROUPS (CATEGORIES): Racial/ethnic groups are defined as follows:

AMERICAN INDIAN (OR ALASKAN NATIVE): A person having origins in any of the original peoples of North America.

ASIAN (OR PACIFIC ISLANDER): A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands.

BLACK (NOT OF HISPANIC ORIGIN): A person having origins in any of the black racial groups.

HISPANIC: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

WHITE, NOT OF HISPANIC ORIGIN: A person having origins in any of the original peoples of Europe, North Africa, the Middle East or Indian Subcontinent.

Race/ethnic designations as used by the Texas Education Agency do not denote scientific definitions of anthropological origins. For the purpose of this report, a student may have been included in the group to which he or she appeared to belong, identified with, or was regarded in the community as belonging. However, no person should have been counted in more than one race/ethnic group.

FOUNDATION SCHOOL PROGRAM (FSP): A program of state government financial assistance created "to guarantee that each school district in the state has adequate resources to provide each eligible student a basic instructional program suitable to his educational needs." Under the FSP, eligible districts receive state aid for minimum salaries of personnel, current operating expenses, categorical program aid, and transportation services. The amount of state aid is be based on the district's ability to support its public schools. (See Sections 16.002 and 16.004 of the Texas Education Code.)

MEMBERSHIP: A pupil accounting measure which, at any given time during the current school year, represents the accumulation of total original entries less withdrawing pupils, plus pupils changing grades, campuses, or districts.

MINORITY: All or any portion of the non-white pupils or personnel in a public school.

ORIGINAL ENTRIES: The number of pupils entering Texas schools for the first time during the current school year.

PUBLIC SCHOOL CAMPUS: An administrative unit of a public school district which serves students enrolled in a limited number of grades and which usually has its own grounds, buildings, and other facilities.

PUBLIC SCHOOL DISTRICT: A governmental jurisdiction created under state law for the general purpose of providing an education to all eligible students who enroll in its schools or educational programs. (See Chapter 19 of the Texas Education Code.)

"REGULAR FOUNDATION SCHOOL PROGRAM (FSP)" PUBLIC SCHOOL DISTRICT: A district created under general statutory authority which is eligible for state funding assistance under the Foundation School Program. These districts have geographic boundaries with corresponding property values, as well as taxing authority. They are administered by a locally elected school board.

SECONDARY SCHOOL: A school which provides instruction for students enrolled in any grade beginning with the next grade following the elementary school and ending with or below grade 12. This includes junior high schools, high schools, and vocational or trade high schools.

SPECIAL POPULATION EDUCATION: Programs designed to meet the special educational needs of limited pupil populations (e.g., the handicapped, limited English-speaking, educationally disadvantaged, etc.).

"SPECIAL STATUTORY" PUBLIC SCHOOL DISTRICT: A district created by special legislative act but not administered by a state government agency. Examples of this type of district are the public schools associated with military bases near San Antonio and the Masonic Home schools in Fort Worth.

"STATE-ADMINISTERED" PUBLIC SCHOOL DISTRICT: A district created by legislative act which is both funded and administered by a state government agency. Most of these schools are administered by the Texas Department of Mental Health and Mental Retardation, and the Texas Youth Council. In addition, the Texas State Board of Education oversees the State Schools for the Deaf and Blind, and the Department of Corrections operates the Windham Schools. The University of Texas System operates Moody ISD which is associated with the UT Medical Branch Hospital in Galveston.

STATISTICAL UNIVERSE: The complete collection of persons or other units of study to which the findings and conclusions of a statistical analysis apply.

TEXAS ASSESSMENT OF BASIC SKILLS: A program of student achievement testing for third, fifth, and ninth graders in Texas public schools. Students are tested to determine whether or not they have mastered basic skills objectives in reading, writing, and mathematics.

TAX RATE: The rate of taxation. When multiplied by the property value, it yields the amount of taxes levied by the school district. Usually given in the form of a rate per $100 of property value. The tax rate set by the district is called the nominal tax rate because it is multiplied by the assessed value. An effective tax rate, often used for comparison purposes, can be computed as the tax rate required to raise the same levy based upon another property value, such as the appraised or full market value.

Example: A district reports an assessed value of $63,000,000 and an assessment ratio of 90 percent, indicating a total appraised value of $70,000,000. It sets a nominal total tax rate of $1.700 per $100 assessed value. Thus the total tax levy is $1.700 times one-hundredth of $63,000,000, equal to $1,071,000. An effective total tax rate based on the appraised value is therefore $1.530, because $1.530 times one-hundredth of $70,000,000 also equals the total tax levy of $1,071,000.
This district's index value for local fund assignment purposes is $76,500,000. An effective total tax rate based on this index value is then $1.400, since $1.400 times one-hundredth of $76,500,000 equals $1,071,000.

Explanation of Abbreviations

ADA - Average Daily Attendance
CSD - Common School District
ESC - Education Service Center
FSP - Foundation School Program
ISD - Independent School District
K - Kindergarten
LESA - Limited English-Speaking Ability
PK - Pre-Kindergarten
RHSD - Rural High School District
SAR - Superintendents Annual Report
SMSA - Standard Metropolitan Statistical Area
TEA - Texas Education Agency
TABS - Texas Assessment of Basic Skills

Technical Notes

Average Percent Ethnic Group Calculation:

For a given ethnic group, the average percent that the ethnic group represents of total students is calculated as

Pct Ethnic Group =
(100 * Ethnic Group Student Count) / Total Student Count

County Estimates:

County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist for only those counties where all school district boundaries coincide with county boundaries.

Rounding Errors:

All percentage calculations have been rounded to a single decimal place. Consequently, table percentages may not sum to exactly 100.0 percent.

Statistical Brief Special Tabulations

The TEA Division of Information Analysis may be able to provide data users with special tabulations or computer tapes based on the same data used in Section III of this report. Inquiries about special tabulations or computer tape files should be addressed to the:

Texas Education Agency
Director, Division of Information Analysis
201 East Eleventh Street
Austin, Texas 78701

All services and/or materials are provided to the requestor at cost. Estimates will be provided upon request.

Management Information Center

Fall Survey of Pupils in Membership

County District Campus Number

Authority for Data Collection: Texas Education Code, Section 11.52(d)

Planned Use of the Data: Civil Action 5281, federal reporting and general statistics

Instructions: For each category, record the membership on the last day of the first six weeks reporting period at this campus to balance with the membership (not including Infant Programs) shown for that date in the Daily Register(s) of Pupil Attendance, or equivalent record-keeping system. This report must be completed separately for each school campus as shown in the Texas School Directory. Contact William Jay at (512) 475-6234 if assistance is needed in completing this form.

*In columns, 1-5 Special Education pupils should be distributed in the grades with regular pupils. However, in column 6 (Totals), separate Special Education pupils from regular pupils. Include all students with a handicapped code of "H" or "X" in the Daily Register of Pupil Attendance in the Special Education column. All others are included in the Regular column.

COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964; EXECUTIVE ORDERS 11246 AND 11375; TITLE IX, 1973 EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; AND VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED IN 1974.

It is the policy of the Texas Education Agency to comply fully with the nondiscrimination provisions of all federal and state laws and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any programs or activities which it operates on the grounds of race, religion, color, national origin, sex, handicap, age, or veteran status (except where age, sex, or handicap constitute a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency makes positive efforts to employ and advance in employment all protected groups.

This *Statistical Brief* was produced by MAUREEN MOORE SCHEEVEL, who wrote the analysis and addenda sections as well as the computer programs which generated the tables, charts, and text.

FOREWORD

The *Statistical Brief* report series is designed to provide timely statistical information on Texas public elementary and secondary education. Each report addresses a specific area and will be released as soon as possible after the data are officially added to the TEA Data Base. Education topics in this series include student enrollments and attendance, revenues and expenditures, professional personnel and salaries, and Foundation School Program information.

This report series is unique in two ways. First, the reports were designed to include information most frequently requested from the TEA Data Base. Those who need these data should find this series very useful. In addition, the *Statistical Brief* tables and text are computerized. This capability permits rapid update of the reports and will improve the accuracy of the report information.

The *Statistical Brief* reports are intended to meet the Texas public education information needs of education administrators, policymakers, researchers, and the general public. Although the basic nature of the information in the Statistical Briefs should meet the education data needs of the foreseeable future, the contents and format of the reports are flexible. Formats may be altered to meet the demand for new educational data as laws and State Board of Education rules are changed, new issues emerge, or the general need for information moves in a new direction. *Statistical Brief* users are encouraged to submit suggestions toward improving the reports.

Raymon L. Bynum
Commissioner of Education

PERSONNEL BY SEX AND ETHNICITY FOR TEXAS PUBLIC ELEMENTARY AND SECONDARY SCHOOL DISTRICTS

1980-81

I. INTRODUCTION

This report provides statistical information on the sex and ethnicity of all personnel as reported on the Roster of Personnel (Form FIN 063) by Texas public school districts in 1980-81. Principal authority for collection of this data is given in Section 16.254 of the Texas Education Code.

The statistical universe for this survey is all personnel reported om the Roster of Personnel by Texas public school districts throughout 1980-81. The relevant data acquired from the Roster for this report are values for sex, ethnicity, full-time equivalency (FTE), and the professional status code. Additional information on the Roster includes values for each person's degree level, pay grade, step, years of experience, funding source, number of days employed, foundation (minimum) salary, and actual salary. Updates are made to the document throughout the school year and may be made within the following five years.

A discussion of terms and concepts presented here and in the following section can be found in the Addenda, Section IV.

II. SUMMARY DISCUSSION

Full-Time Equivalency Concept

All personnel in this report are presented as "full-time equivalent" personnel. This is not a body count but rather a computation of the percent of time spent at a particular task. For example, if two people each work half-time then together they represent the equivalent of one full-time employee and are presented here as such. (The actual number of individuals reported on the Roster is 246,300, which translates on an FTE basis to 234,334.)

Personnel by District Type

In the 1980-81 school year, the 1,070 active regular Foundation School Program districts employed the majority of the more than 234,000 FTE's reported in Texas. However, it should be noted that not all of the special statutory and state-administered districts submitted personnel rosters; out of the six special statutory districts, five reported data, and out of the 23 state-administered districts, only one reported.

Table II-1 below summarizes the 1980-81 personnel FTE totals by district type for each personnel category, aggregated by sex and ethnicity. This information, detailed by district, can be found in Tables III-3 and III-4.

* La Gloria ISD (125-906) did not return a Roster of Personnel in 1980-81. In 1979-80, it reported 8 total FTE personnel.

DETAIL MAY NOT SUM TO TOTAL DUE TO ROUNDING AND/OR MISSING CODES.

Types of Personnel

For the purposes of this report, all personnel have been aggregated into three categories: teachers, support/administrative, and aides and secretaries.* The appropriate category is determined by each employee's professional status code, a four-digit code indicating a job assignment or function, which is reported by the district on its Roster. (See "Personnel Categories" and "Professional Status Code" in the Addenda Section for a more detailed description.) To better illustrate these categories, Table II-2 presents subtotals for more specific job descriptions. Therapists are a new grouping of personnel; prior to 1979-80 there was no professional status code assigned for that particular function.

---

*Non-classified personnel, such as substitute teachers, plant maintenance, lunch room, bus drivers, and other clerical personnel are not reported on the Roster of Personnel.

NOTE: DETAIL MAY NOT SUM TO TOTAL DUE TO ROUNDING AND/OR MISSING CODES.

Ethnic Percent-of-Total by Sex

Table II-3 outlines the ethnic percent-of-total FTE's reported for each personnel category, calculated for all personnel and for each sex alone. Each job type reflects a very different mix: teachers, because of their sheer numbers, have the most influence on the total personnel ratios for each sex or ethnic breakdown; support and administrative personnel are almost evenly divided between males and females and so exhibit higher male percents-of-total for each ethnicity than the total male percents-of-total; and instructional aides and secretaries appear to be the most ethnically integrated of the three groupings.

Historical Totals

Any definitive ethnic trends are difficult to confirm since breakdown of FTE totals by sex and ethnicity are unavailable prior to 1976-77. Earlier data are unreliable because of coding discrepancies and changes in the manner of reporting personnel. At this date it is improbable that the data could be recreated with much ease.

Table II-4 presents historical FTE counts organized by personnel category, sex, and ethnicity. Also, in Section III, Table III-5 summarizes historical ethnic FTE counts by personnel category and sex, while Table III-5A provides the same information in percentages.

Historical Trends

Table II-5 calculates the increases in FTE's and percent-of-total in each ethnic category during the five-year period from 1976-77 and 1980-81, and also during the one year span from 1979-80 to 1980-81. The increase in total personnel FTE's between 1976-77 and 1980-81 was 28,171; of this, 12,705 were minority FTE's and 15,966 were white. Over the one year, there was a 5,485 FTE increase, of which 2,616 were minorities and 2,869 were white.

Both support and administrative personnel and aides and secretaries exhibited a higher growth percentage increase than did teachers during these five year and one year periods. Over the five years, their percentages increased by 25.2 percent and 21.6 percent respectively, whereas teachers grew by only 10 percent. Obviously a rising demand for these personnel exists. See the Statistical Brief entitled "Personnel Counts and Salaries of Texas Public Elementary and Secondary School Districts" for insight into personnel hiring trends.

In both time periods women have accounted for most of the personnel increases and obviously, the majority of these increases are teachers. However, gains made by women in support and administrative positions prove worthy of special mention. In 1976-77, 47 percent of these personnel were women; in 1980-81 that percentage had risen to almost 54 percent. From 1979-80 to 1980-81 alone the number of women in that category increased by 5.5 percent. Women in support positions carry the weight of these increases. Referring back to Table II-2, females comprise about 83 percent of all support personnel, but they account for only 21 percent of administrative personnel. Considering the category as a whole, the position of superintendent contains the fewest females (.59 percent) while health service positions contain the most (99.3 percent). Male personnel employed in support and administrative positions did increase at a faster rate (9.2) than the male average (4.6), but obviously not with the speed of the females in the same category.

Even though whites comprise the majority of the increase in the period from 1976-77 to 1980-81, all minorities but especially Hispanics were increasing at greater **relative** rates. To further corroborate this observation is the fact that whites registered a 2.75 percent decline in percentage-of total even though their actual numbers increased. (See Table III-5A).

As shown by Table II-5, total personnel increased by 13.7 percent since 1976-77, but as a group Hispanics increased by 40.6 percent over the same period. Noteworthy are the gains in support and administrative positions made by Hispanic women, who registered a 109 percent increase since 1976-77, and a 10 percent rise since the previous year. Although the percentage increase of blacks (12.9 percent) is less than the total growth percentage, they were hired at a higher rate than were whites (9.7 percent). And, as for Asians and American Indians, because there are so few employed by the districts their startling percentage increases are somewhat misleading; their numbers are changing but the growth makes little impact upon the total number of personnel. These dramatic percentage increases forecast that their numbers will continue to rise steadily in future years.

x x x

These same observations basically hold true for the period from 1979-80 to 1980-81. All minority groups registered percentage increases higher than the growth averages for both whites and total personnel (1.7 and 2.0 percent respectively). American Indian women registered the most impressive gain since the previous year (75 percent), while white males exhibited the lowest gain (.11 percent).

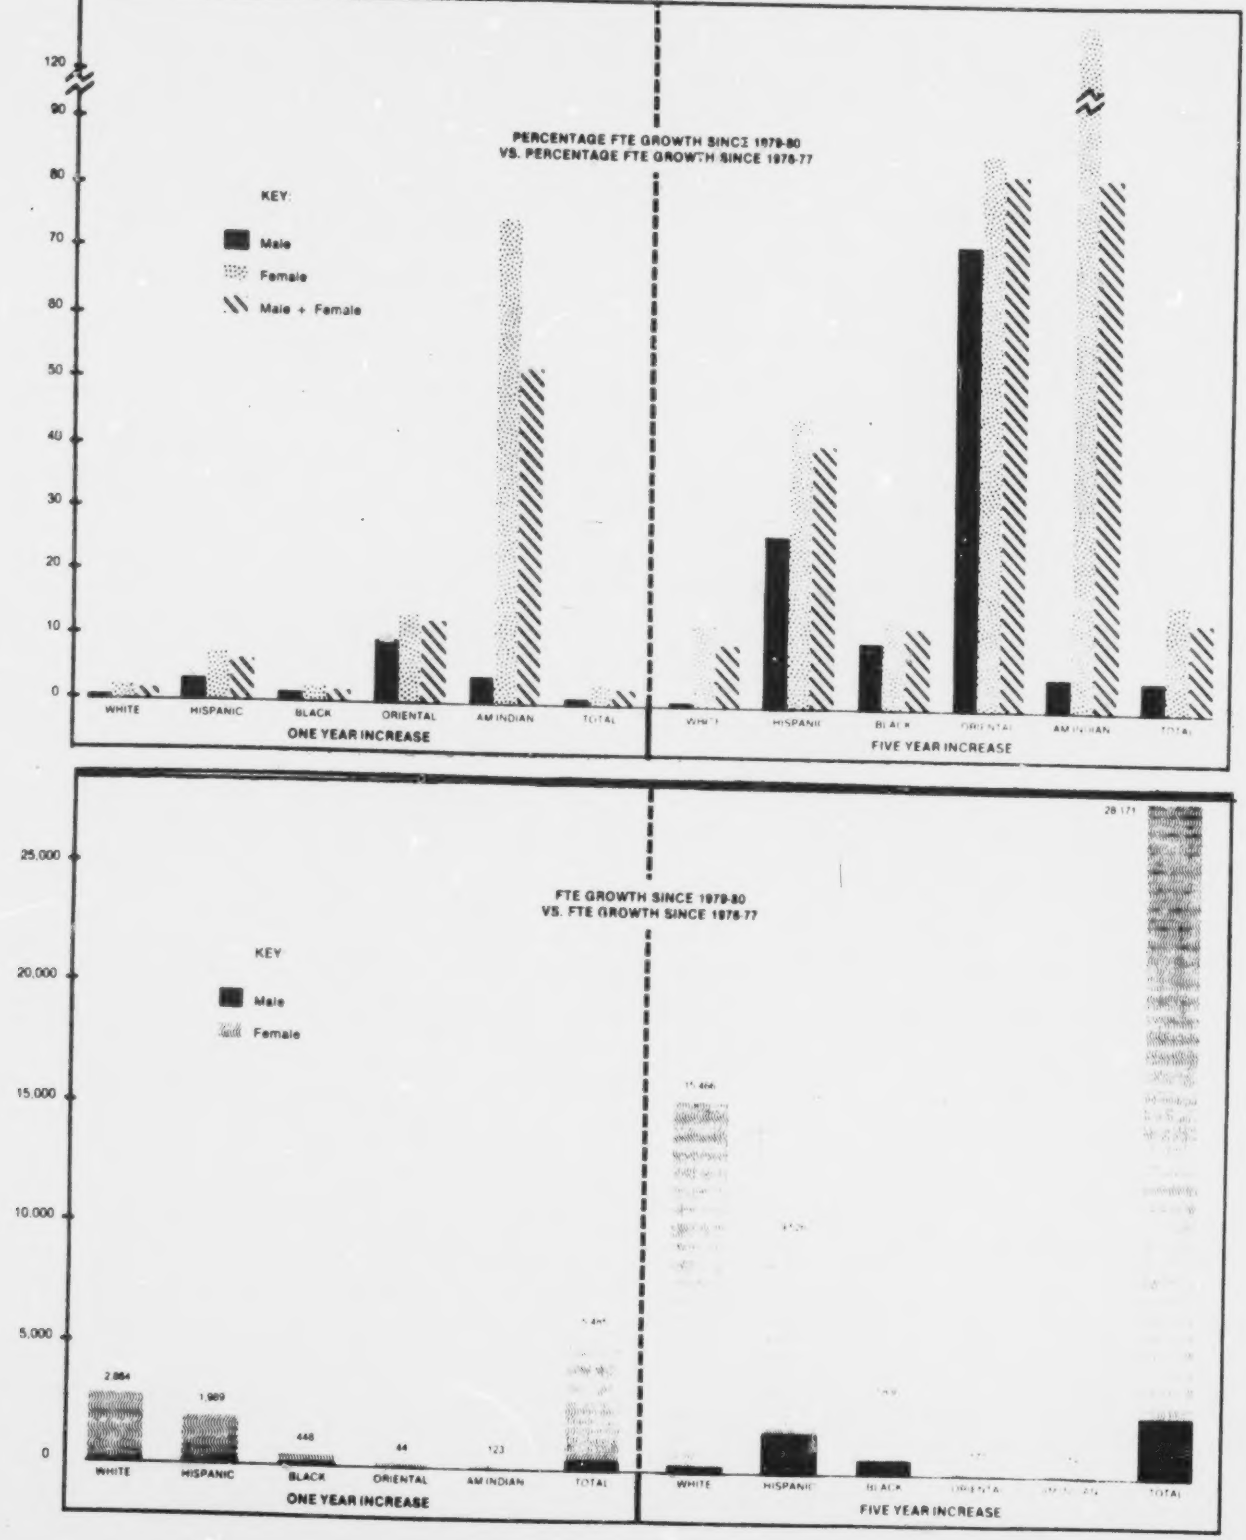
Graph II-1 illustrates the Table II-5 entries for total personnel. Bar charts show both percentage and actual FTE growth for each sex and ethnic group as a whole. Refer back to Table II-5 for the actual numbers represented in the graph.

GRAPH II - 1
1980-81 TOTAL PERSONNEL BY SEX & ETHNICITY



III. DETAILED TABLES

Data used to prepare the Section II analysis are contained in this section. Each table presents the data in the manner described below.

TABLE	ORGANIZATION	DISTRICT COVERAGE	PAGE
III-1	TEA ANALYZE Report Categories	Regular FSP Districts Only	9
III-2	ESC Regions	All Active Districts	
	III-2A FTEs Sex & Ethnicity		13
	III-2B Percentages by Category		16
	III-2C Percentages by Sex		19
	III-2D Percentages by Ethnicity		22
III-3	Regular FSP Districts with Estimated County Totals	Regular FSP Districts Only	25
III-4	Special Statutory and State-Administered Schools and Education Service Centers	Special & State Districts & ESCs	140
III-5	Historical State Totals 1976-77 to 1980-81	All Active Districts	143
III-6	FTEs by Pay Grade & Step	All Active Districts	145
III-7	FTEs by Professional Status Code	All Active Districts	151

NOTES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

ANALYZE report categories are district groupings used by TEA. See "Annotated Definitions of Terms" in the Addenda.

PERSONNEL DESCRIPTIONS BY PAY GRADE

PAY GRADE 1: Educational Aide I
Educational Secretary I
PAY GRADE 2: Educational Aide II
Educational Secretary II
PAY GRADE 3: Educational Aide III
Educational Secretary III

PAY GRADE 4: Teacher Trainee I (Non-degree, Emergency Permit)
PAY GRADE 5: Teacher Trainee II (Degree, Emergency Permit Only)
Certified Non-degree Teacher
PAY GRADE 7: Bachelor's Degree Teacher
Librarian
Visiting Teacher
Special Education Related Service
Non-degree Vocational Education Teacher
Nurse, R.N.

PAY GRADE 8: Master's Degree Teacher
Librarian
Special Education Related Service
Vocational Teacher
Nurse (Master's Degree and Certificate)
PAY GRADE 9: Special Duty Teacher (Master's Degree)
Teacher (Doctor's Degree, LL.B, or J.D.)

PAY GRADE 10: Part-Time Principal (1 to 11 Teachers)
Instructional/Administrative Officer I
Supervisor
Counselor
Psychologist
Associate Psychologist
Diagnostician
Visiting Teacher (Master's Degree)
Occupational or Physical Therapists

PAY GRADE 11: Assistant Principal (20 or more Teachers)
Instructional/Administrative Officer II
PAY GRADE 12: Principal (19 or fewer Teachers)
Instructional/Administrative Officer III
PAY GRADE 13: Principal (20 to 49 Teachers)
Instructional/Administrative Officer IV
Administrative Officer IV
PAY GRADE 14: Principal (50+ Teachers)
Instructional/Administrative Officer V (401+ ADA)
Superintendent (Less than 400 ADA)
PAY GRADE 15: Superintendent (401 to 3,000 ADA)
Instructional/Administrative Officer VI (3,001+ ADA)
PAY GRADE 16: Superintendent (3,001 to 12,500 ADA)
Instructional/Administrative Officer VII (12,500+ ADA)
PAY GRADE 17: Superintendent (12,501 to 50,000 ADA)
Instructional/Administrative Officer VIII (50,000+ ADA)
PAY GRADE 18: Superintendent (50,000+ ADA)

IV. ADDENDA

The Roster of Personnel:
Historical Considerations

Prior to 1978-79, two documents pertaining to personnel were collected by the Texas Education Agency: the Professional Personnel Assignments (PPA) which reported the sex, ethnicity, and all job assignments of personnel, and the Roster of Personnel which collected information relevant to funding. At present only the Roster of Personnel is collected. When comparing the PPA and the Roster, only a 75 to 80 percent match could be expected.

The Roster of Personnel has undergone significant changes in function and usage over the past five years, although its format has remained basically the same. In 1975-76, a new Foundation School Program allocation system was adopted which based all regular program personnel allocations on average daily attendance (ADA) figures; previously, only teacher allocations were based upon ADA while aides, secretaries, support, and administrative personnel allocations were based upon the number of teachers allocated. Many districts had not reported all classified personnel employed on the Roster because of that structure. Therefore, TEA does not consider personnel data from the Roster prior to 1975-76 valid for historical comparisons.

In 1978-79, sex and ethnic codes were first included on the Roster of Personnel since districts no longer submitted Professional Personnel Assignment reports. Also that year, a separate funding code was added and the professional status codes which implied a person's funding source were retired from use. The most recent change, effective in 1979-80, was a complete overhaul of the professional status codes to indicate more specific information about each employee. For example, currently a teacher's code can designate the grade level taught (pre-kindergarten-kindergarten, elementary, or secondary), the type of program taught (general, bilingual, special ed, or vocational education), and the most frequently taught teaching field. Also, now there are separate codes to indicate whether a particular job is performed on the elementary or secondary level. This coding enhancement applies to support and administrative personnel such as counselors, and full-time, part-time, and assistant principals.

Sex and Ethnicity Codes

Inevitably, each year some personnel are reported with erroneous sex or ethnic codes or none at all, and so default to 'OTHER' in one or both categories on the TEA personnel data files. Except for 1977-78, in which over 500 personnel were recorded with invalid codes, this number has been small (i.e. anywhere from around 15 to 75 personnel). The Statistical Brief for 1978-79 did not try to correct any of those missing or erroneous codes, but attempts were made in this and the 1979-80 publications to at least give accurate totals by sex. Therefore, the historical totals in this document will not exactly correspond to those in the 1978-79 publication.

Education Service Center Personnel

Each of the twenty Regional Education Service Centers (ESCs) provides educational services and coordinates educational planning within its respective region. According to Section 11.32 of the Texas Education Code, the ESCs should furnish participating districts with " educational media materials, equipment and maintenance, and educational services." Therefore, even though these centers are not school districts, their personnel provide some of the same services as district-employed personnel to participating districts in each respective region.

Personnel reported on the Rosters of the Education Service Centers usually can be categorized in one of two ways. In some cases the ESC acts as the fiscal agent for a special education co-op in the area. Administrative procedure requires that personnel employed by these co-ops be reported on the Roster of the fiscal agent, so in the case where the ESC is the fiscal agent a Roster of Personnel is submitted with these special education personnel. Alternatively, the Education Service Centers may employ certain units allocated to districts with 1,000 or fewer students in ADA. These personnel units, usually librarians, library aides, counselors, or supervisors, are to be used cooperatively with other districts to provide support services necessary to meet accreditation standards. As they are available to any of the above described districts in the region, it would not be appropriate to list them on a particular district's Roster.

Therefore, only personnel available to school districts in the region are reported on an Education Service Center's Roster of Personnel; employees servicing only the ESC are not included.

State-Administered District Personnel: Historical Considerations

Windham Schools, the educational facility under the jurisdiction of the Texas Department of Corrections, is the only state-administered district which has its costs of operation paid from the Foundation School Program fund. The personnel on its roster are funded under the Foundation School Program (FSP). All other state-administered districts are operated by other state agencies and their personnel are not funded under the FSP.

Prior to 1978-79, Rosters of Personnel were received from all state-administered districts, but the personnel from districts other than Windham Schools are excluded from the 1976-77 and

1977-78 totals in order for historical comparisons to remain consistent. In 1976-77, 963 FTE personnel were excluded while in 1977-78, 846 FTE personnel were excluded.

Annotated Definitions of Terms

ACTIVE SCHOOL DISTRICT: Any public school district which operates a school in the district each year. (See Section 19.246(b) of the Texas Education Code.)

ANALYZE REPORT CATEGORIES: Special district groupings of data used for TEA school finance policy analysis. These categories are defined as follows:

1. MAJOR URBAN DISTRICTS: The largest school districts located within the central city of each of the state's six largest Standard Metropolitan Statistical Areas (SMSA's), (i.e. Austin, Corpus Christi, Dallas-Fort Worth, El Paso, Houston, and San Antonio). SMSA's are defined by the U.S. Bureau of the Census.
2. OTHER CENTRAL CITY DISTRICTS: Districts which are considered by TEA to be the "most central" to the state's remaining SMSA's.
3. SUBURBAN-FAST GROWING DISTRICTS: Generally, suburban districts of 1,000 or more refined ADA which grew at least 5 percent from 1970-75 and some smaller suburban districts which displayed rapid growth for the same period.
4. SUBURBAN-STABLE DISTRICTS: Suburban districts which are similar to those in the previous category but which do not demonstrate high ADA growth rates.
5. NON-METRO WITH 1000+ ADA DISTRICTS: Districts which have 1,000 or more refined ADA and which are not included in the previous categories.
6. NON-METRO WITH TOWN DISTRICTS: Districts which have less than 1,000 ADA and which encompass a town having a population of approximately 1,000 or more.
7. RURAL DISTRICTS: Districts which have less than 1,000 ADA and which have no central town within their boundaries.

CLASSIFIED PERSONNEL: Personnel serving in positions set forth in Section 16.056 of the Texas Education Code.

COUNTY-DISTRICT NUMBER. A six-digit TEA code which uniquely identifies each Texas school district. The first three digits identify the county in which the district administrative offices are located. The last three digits identify the type of district as follows:

000 thru 099 - Common School District
701 thru 799 - Rural High School District
901 thru 949 - Independent School District
950 - Regional Education Service Centers

EDUCATION SERVICE CENTER (ESC): A special intermediate level agency established to provide planning, coordination, and other special services to public school districts within a defined geographic region of Texas. (See Sections 11.32 and 11.33 of the Texas Education Code.)

ETHNIC GROUPS (CATEGORIES): Racial/ethnic groups are defined as follows:

AMERICAN INDIAN (OR ALASKAN NATIVE): A person having origins in any of the original peoples of North America.

ASIAN (OR PACIFIC ISLANDER): A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands.

BLACK (NOT OF HISPANIC ORIGIN): A person having origins in any of the black racial groups.

HISPANIC: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

CAUCASIAN (WHITE, NOT OF HISPANIC ORIGIN): A person having origins in any of the original peoples of Europe, North Africa, the Middle East or Indian Subcontinent.

Race/ethnic designations as used by the Texas Education Agency do not denote scientific definitions of anthropological origins. Values for ethnicity are assigned by the district on the Roster of Personnel. If an ethnic value goes unreported on the district roster the Agency then assigns that employee as 'WHITE' by default, although the district does have an opportunity to change the value by a later update. In this report if the ethnic field has remained blank then that employee is flagged as an 'OTHER'. This does not imply a separate racial grouping, but rather an unreported ethnicity. However, no person should have been counted in more than one race/ethnic group.

FOUNDATION SCHOOL PROGRAM (FSP): A program of state government financial assistance created "to guarantee that each school district in the state has adequate resources to provide each eligible student a basic instructional program suitable to his educational needs." Under the FSP, eligible districts receive state monies for minimum salaries of personnel, current operating expenses, categorical program aid, and transportation services. The amount of state aid is based on the district's ability to support its public schools. (See Sections 16.002 and 16.004 of the Texas Education Code.)

FULL-TIME EQUIVALENT (FTE): A measure for personnel reporting purposes whereby part-time personnel have been converted to an equivalent number of full-time personnel. In the simplest case, if two teachers each work half time, together they are the equivalent of one full-time teacher. The computation for determining the FTE amount of any employee is:

$$\text{FTE} = \frac{\text{Number of days employed X Percent of day worked}}{\text{Maximum days authorized}}$$

MINORITY: All or any portion of the non-white pupils or personnel in a public school.

NON-CLASSIFIED PERSONNEL: Personnel who are not serving in positions authorized under Section 16.056 of the Texas Education Code. Non-classified personnel include maintenance personnel, school lunch room personnel, bus drivers, substitute teachers, etc.

PERSONNEL CATEGORIES: These are the three personnel groupings used throughout this report and they are defined as follows:

1. TEACHER: A person instructing students in a public school in one or more subjects, and who has a valid Texas teaching certificate or emergency permit.
2. SUPPORT & ADMINISTRATIVE:
   a. SUPPORT: Those persons who provide a particular service to the school body and/or staff. Librarians, nurses, supervisors, and counselors comprise the majority of this category.
   b. ADMINISTRATIVE: Any person who is involved in the management of finances, personnel, and/or students in a school. Examples are principals, administrative officers, and superintendents.
3. AIDES & SECRETARIES: A person in pay grade one, two, or three who is involved in either administrative or instructional support. These personnel are generally considered to be non-professionals.

PROFESSIONAL STATUS CODE: A number or code intended to designate the general assignment of each employee. From this code the personnel category (i.e.,teacher, administrator, support, or aide) can be determined. A change in codes was effected in 1979-80 which now gives more specific informatin about each employee. For teachers and support personnel the code indicates the level taught, such as elementary or secondary, and for teachers alone, the teaching field (subject area). Also, the program area for all employees is more easily discernible (i.e. regular FSP, special education, vocational education, or other).

PUBLIC SCHOOL DISTRICT: A governmental jurisdiction created under state law for the general purpose of providing an education to all eligible students who enroll in its schools or educational programs. (See Chapter 19 of the Texas Education Code.)

"REGULAR FOUNDATION SCHOOL PROGRAM (FSP)" PUBLIC SCHOOL DISTRICT: A district created under general statutory authority which is eligible for state funding assistance under the Foundation School Program. These districts have geographic boundaries with corresponding property values, as well as taxing authority. They are administered by a locally elected school board.

"SPECIAL STATUTORY" PUBLIC SCHOOL DISTRICT: A district created by special legislative act but not administered by a state government agency. Examples of this type of district are the public schools associated with military bases near San Antonio and the Masonic Home schools in Fort Worth.

"STATE-ADMINISTERED" PUBLIC SCHOOL DISTRICT: A district created by legislative act which is both funded and administered by a state government agency. Most of these schools are administered by the Texas Department of Mental Health and Mental Retardation or the Texas Youth Council. In addition, the Department of Corrections operates Windham Schools and the University of Texas System operates Moody ISD, the district associated with the UT Medical Branch Hospital in Galveston. The State Schools for the Deaf and Blind have been under the Texas State Board of Education, but will be under the control of independent boards beginning in the 1981-82 school year.

STATISTICAL UNIVERSE: The complete collection of persons or other units of study to which the findings and conclusions of a statistical analysis apply.

Explanation of Abbreviations

CSD - Common School District
ESC - Education Service Center
FSP - Foundation School Program
FTE - Full Time Equivalent
ISD - Independent School District
RHSD - Rural High School District
SMSA - Standard Metropolitan Statistical Area
TEA - Texas Education Agency

Technical Notes

ROUNDING ERRORS: All FTE totals have been truncated to the lowest whole number. Consequently, the detail may not sum to the report totals.

DISTRICTS REPORTING: Data for 1,075 of the 1,099 active districts in 1980-81 are presented in this survey as well as data for all of the twenty Regional Education Service Centers. Most of the non-reporting districts are state-administered.

COUNTY ESTIMATES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964; EXECUTIVE ORDERS 11246 AND 11375; TITLE IX, 1973 EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; AND VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED IN 1974.

It is the policy of the Texas Education Agency to comply fully with the nondiscrimination provisions of all federal and state laws and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any programs or activities which it operates on the grounds of race, religion, color, national origin, sex, handicap, age, or veteran status (except where age, sex, or handicap constitute a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency makes positive efforts to employ and advance in employment all protected groups.

Division of Information Analysis

BRIAN L. WILSON, Director
MAUREEN MOORE SCHEEVEL, Systems Analyst I

This *Statistical Brief* was produced by BRIAN L. WILSON and MAUREEN MOORE SCHEEVEL, who write the analysis and addenda sections as well as the computer programs which generated the tables, charts, and text.

FOREWORD

The *Statistical Brief* report series is designed to provide timely statistical information on Texas public elementary and secondary education. Each report addresses a specific area and will be released as soon as possible after the data are officially added to the TEA Data Base. Education topics in this series include student enrollments and attendance, revenues and expenditures, professional personnel and salaries, and Foundation School Program information.

This report series is unique in two ways. First, the reports were designed to include information most frequently requested from the TEA Data Base. Those who need these data should find this series very useful. In addition, the *Statistical Brief* tables and text are computerized. This capability permits rapid update of the reports and will improve the accuracy of the report information.

The *Statistical Brief* reports are intended to meet the Texas public education information needs of education administrators, policymakers, researchers, and the general public. Although the basic nature of the information in the Statistical Briefs should meet the education data needs of the foreseeable future, the contents and format of the reports are flexible. Formats may be altered to meet the demand for new educational data as laws and State Board of Education rules are changed, new issues emerge, or the general need for information moves in a new direction. *Statistical Brief* users are encouraged to submit suggestions toward improving the reports.

Raymon L. Bynum
Commissioner of Education

PERSONNEL COUNTS AND SALARIES
OF TEXAS PUBLIC ELEMENTARY AND SECONDARY SCHOOL DISTRICTS
1980-81

I. INTRODUCTION

This report provides summary statistical information on personnel and salaries reported by public elementary and secondary school districts during the 1980-81 school year on the following TEA report:

Roster of Personnel (form FIN063), 1980-81

The statistical universe for this annual data collection is all classified personnel.(1) This publication includes the classified personnel reported by 1,069 of the 1,070 active districts which had local taxing authority, six of the 29 active districts which had either no local taxing authority or no taxable property values, and the 20 Education Service Centers (ESCs) which reported personnel allocated under the Foundation School Program.

Principal authority for collection of this data is Section 16.254 of the Texas Education Code. The data serve a great number of administrative and informational purposes. The primary administrative purpose is to determine the salaries of the Foundation School Program (FSP) personnel allocations. Personnel statistics are also provided to government and private requestors.

This report provides district summary information on the number of full-time equivalent (FTE) personnel and their salaries summarized by three general types of personnel: aides and secretaries, teachers, and administrative/support staff. Average salaries and pupil/personnel ratios are computed for each district

An overview of the Foundation School Program as it relates to personnel allocations highlights Section IV. This section also contains a more thorough discussion of relevant concepts along with an explanation of terms used throughout the report.

---

(1) "Non-classified" personnel, such as maintenance personnel, lunch room personnel, bus drivers, substitute teachers, etc., are not reported on the Roster of Personnel.

II. SUMMARY DISCUSSION

Personnel and Salary Totals for Texas, 1980-81

Texas public school districts reported 234,000 full-time equivalent (FTE) personnel and $3.5 billion in salaries on the Roster of Personnel for the 1980-81 school year. State total trends indicate that Texas public school districts are increasing their number of personnel at a faster rate than the rate of increase in the student population. Due to the fact that the state funding formulas are based upon the number of students in attendance, some of the increased costs were paid from local tax dollars. At the same time, school districts continue to increase the salaries of personnel at a faster rate than the increase in the statewide minimum salary schedule, resulting in more pressure to raise local taxes to fund these increases.

NOTE: La Gloria ISD, 125-906, did not submit a Personnel Roster in 1980-81.

Table II-1 reflects the 1980-81 full-time equivalent personnel and salary state totals by district Foundation School Program (FSP) status. This table also shows the number of active public school districts and the number of those districts which submitted a personnel roster. A column by column description of the table can be found at the beginning of Section III on page 18.

Personnel by Funding Source

The personnel in Table II-1 are reported by funding source. The Foundation School Program category reflects 163,600 personnel who filled the personnel allocations earned by school districts under the state Foundation School Program formulas. Districts employed 43,615 FTE personnel who were eligible for the FSP allocations but were employed in "excess" of those allocations. These excess personnel, often called "staff enrichment," were paid entirely from local funds. Personnel not eligible for the FSP allocations include 22,108 FTE's paid from federal funds, 2,704 FTE's paid from state compensatory education funds, and 2,074 FTE's paid from other miscellaneous funding sources.

Salaries of Personnel

Texas is one of approximately 10 states with a statewide minimum salary schedule. Because this schedule is set forth in the Foundation School Program laws, these salaries are referred to as either foundation salaries or minimum (min) salaries. Figure II-1 depicts the minimum and actual salaries of personnel by funding source. The minimum salaries of personnel allocated under the Foundation School Program amounted to $2.27 billion, which was 74 percent of the cost of the Foundation School Program. The minimum salaries of all personnel reported on the Roster amounted to $2.92 billion, while the total actual salaries of all personnel amounted to $3.5 billion. The amount of salary enrichment, or the amount that actual salaries exceeded minimum salaries, was $580 million.

▨ Salaries paid from other miscellaneous sources

Detail may not sum to total due to rounding.
These data are for the universe shown in Table II-1.
The figure is roughly proportionate in size.

The average salary of all personnel in 1980-81 was $14,945, which was $2,477 or 19.9 percent above the average minimum salary. The average teacher salary was $15,724, which was $2,495 or 18.9 percent above the average minimum salary of teachers. The average salary of a beginning teacher was $11,346, which was $1,895 or 20.05% above the average minimum salary for beginners. The salary enrichment percentage for both districts and FTE's is shown in Table II-2. Districts were grouped by comparing each district's average foundation (minimum) salary with its average actual salary. FTE personnel were grouped by comparing each person's foundation (minimum) salary to his or her actual salary. Consequently, the two counts are independent. That is, FTE's shown in a given percentage group are not necessarily employed by any of the districts falling within the same percentage group.

Table II-2 shows that over 98 percent of the districts paid some enrichment salaries while 90 percent of the personnel received some salary enrichment. Over three-fourths of the districts had an average salary enrichment of less than 15 percent, while in contrast, over half of the FTE's were enriched by 15 percent or more Although this statement may seem contradictory, the phenomenon may be attributed to the fact that the distribution of both students and personnel is highly skewed. Five percent of the school districts (the largest 54 districts in student population) employed more than 50 percent of all personnel reported on the Roster (See Table III-1). Enrichment in these districts averaged 25.9 percent. On the other hand, the smallest 700 districts, with 1,000 ADA or less, reported approximately 11 percent of all personnel, and averaged only 9.1 percent enrichment. Figure II-2 presents the distribution of personnel among districts.

TABLE II-2
1980-81 SALARY ENRICHMENT PERCENTAGES
COUNT OF PERSONNEL PAID ABOVE MINIMUM SALARY

% Actual Salary Above Foundation (Min) Salary	DISTRICTS		FTE PERSONNEL*

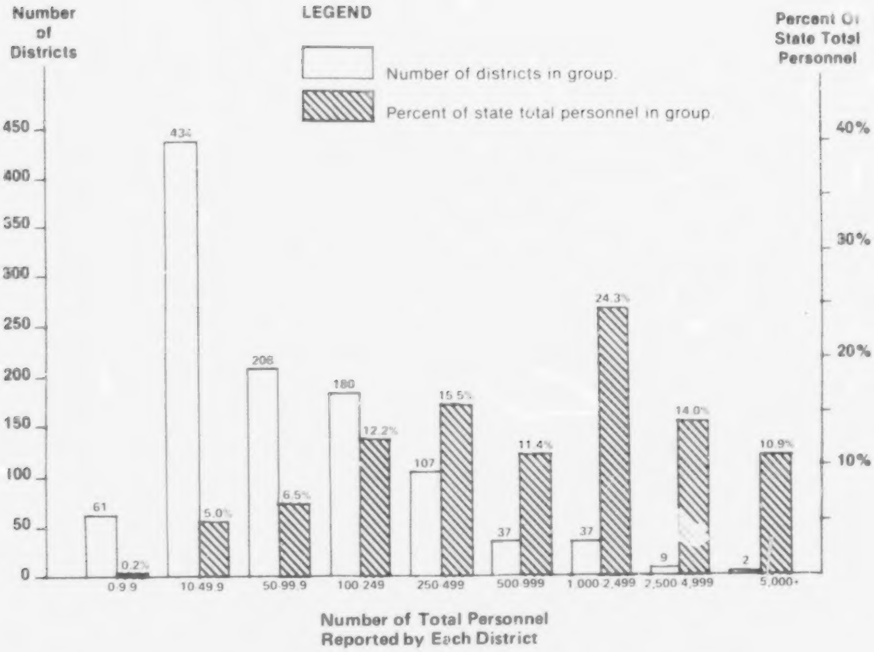
---

* The personnel count as reported here is independent of the district count. These data represent all districts which reported except the Education Service Centers.

* The detail may not add to the total due to rounding and/or missing codes.

FIGURE II-2
DISTRICTS GROUPED BY NUMBER OF PERSONNEL REPORTED IN 1980-81 WITH PERCENT OF STATE TOTAL PERSONNEL IN EACH GROUP



EXAMPLE INTERPRETATION:

The number of districts which reported at least 10 FTE personnel but less than 50 FTE personnel was 434. These 434 districts employed only five percent of the state total number of FTE personnel.

Types of Personnel

School district personnel are classified in a large variety of job assignments or functions. For the purpose of this report, personnel have been grouped into three major categories. Table II-3 shows these three categories along with some of their subordinate classifications.

TABLE II-3

1980-81 PERSONNEL AND SALARY TOTALS BY PERSONNEL CATEGORY

Personnel Category	FTEs	Total Foundation Salaries	Total Actual Salaries	Average Foundation Salary	Average Actual Salary
TOTAL PERSONNEL	234,334	2,921,774,182	3,502,183,170	12,468	14,945

THERAPISTS	130	1,392,131	1,839,045	10,678	14,105
OTHER	341	5,517,730	6,809,309	16,147	19,926
ADMINISTRATIVE	12,441	265,854,941	333,972,471	21,368	26,843
ADMIN/INSTRUCT OFFICERS	4,052	88,050,142	112,366,329	21,726	27,725
FULL-TIME PRINCIPALS	4,997	108,314,331	132,954,647	21,675	26,606
PART-TIME/ASST PRINCIPALS	2,370	40,891,798	53,926,653	17,253	22,752
SUPERINTENDENTS	1,021	28,598,670	34,724,842	27,995	33,992

On a statewide basis, the distribution of personnel consisted of 20 percent aides and secretaries, 69 percent teachers, and 11 percent support/administrative staff. On a pupil basis these figures translate to 56.5 students for each aide or secretary, 16.3 students for each teacher, and 100.8 students for each support or administrative staff member, with an overall ratio of 11.2 students in average daily attendance for each staff member.(2) Note that most of the pupil/personnel ratios in the Section III tables exclude all special education personnel because of the data problems associated with special education co-ops. (This subject is addressed in the Addenda under the topic "Pupil to Personnel Ratios" and by the Addenda footnote "4.")

---

(2) These ratios may serve as a proxy for those desiring average class sizes or other student/staff comparisons.

Historical Analysis

State total historical personnel and salaries are presented in Section III-5. Because of changes in the way in which the personnel on the roster have been reported, historical data are not consistent prior to 1975-76. While the following analysis examines the trends over five years, these facts stand out when comparing the changes in school district practices between 1980-81 and the prior year:

> Personnel increased at a faster rate than the growth in student attendance. Table II-4 shows a crosstabulation of change in ADA and change in personnel. For example, the top right box shows that 70 districts, which had a loss of 4,374 ADA, reported 789 additional personnel. Statewide, the number of personnel increased by 5,400 FTE's while the student count increased 35,000 ADA.

TABLE II-4
CHANGES IN ADA AND PERSONNEL
1979-80 TO 1980-81

	ADA Change FTE Change No. Dists	- PERSONNEL -			
		Loss	Stable	Gain	
STUDENTS	Loss	-6,473 -586 44	-3,054 -3 58	-4,374 +789 70	-13,901 +200 172
	Stable	-74 -322 38	-130 +82 357	+490 +900 179	+286 +661 574
	Gain	+1,799 -365 18	+1,781 +22 51	+45,047 +4,947 260	+48,628 +4,603 329
		-4,748 -1,272 100	-1,403 +101 466	+41,163 +6,636 509	+35,013 +5,464 1,075

Of the 5,400 increase in personnel, more than 2,100 of the increase were paid from local sources. In addition to this increase in staff enrichment, salary enrichment increased from $403 million to $580 million, or 43.9 percent.

Growth in the Number of Personnel and Pupils since 1976-77

Over the period from 1976-77 to 1980-81, the number of students enrolled in Texas public schools increased by 62,700 (from 2,979,775 to 3,042,476 original entries). Correspondingly, the number of FTE personnel reported by school districts increased by over 28,000 FTE's. The net effect of these increases is that the districts reported an increase of one staff member for each increase of 2.2 students.

Table II-5 shows the number of personnel by category and the increase from 1976-77 to 1980-81.

TABLE II-5
NUMBER OF PERSONNEL BY CATEGORY

Year	Teachers	% of Total	Aides	% of Total	Support/ Admin.	% of Total	Total*
			Number of Personnel				
1976-77	146,954	(71.3)	37,975	(18.4)	21,233	(10.3)	206,163
1977-78	151,618	(70.7)	40,472	(18.9)	22,287	(10.4)	214,387
1978-79	155,496	(70.0)	43,045	(19.3)	23,743	(10.7)	222,285
1979-80	158,537	(69.3)	45,007	(19.7)	25,304	(11.1)	228,849

			Increase in Number of Personnel				
Increase (77 to 81)	14,642	(52.0)	8,632	(30.6)	4,896	(17.4)	28,171
% Increase (77 to 81)	10.0%		22.7%		23.1%		13.7%

---

* Detail may not add to total due to rounding or missing codes. These data are taken from Section III-5, and represent the same universe as shown in Table II-1.

Measured in terms of growth rates, the number of teachers has increased at a rate of 2.4 percent per year, while aides and support/administrative staff have grown at annual rates of 5.25 percent and 5.3 percent respectively. (Comparatively, the student population increased at an annual rate of 0.5 percent per year.)

Table II-6 categorizes personnel by funding source. The number of Foundation School Program personnel, which is derived from each district's average daily attendance (ADA) and other factors, has increased proportionately with the increase in ADA. Because the growth of personnel in the other categories has been at a faster rate than the growth in ADA, the percent that FSP personnel are of total personnel declined from 76.1 percent in 1976-77, to 69.8 percent in 1980-81. Since 1976-77, 61 percent of the increase in personnel has been in the local excess category. Table II-7 shows a similar categorization for salaries.

TABLE II-6

---

* Detail may not sum to total due to rounding or missing codes.
These data represent the universe shown in Table II-1.

Table II-7 shows that in 1980-81 the Texas public school districts paid $3.5 billion in salaries to personnel reported on the Roster of Personnel. (Total payroll costs as reported on the 1980-81 Official Budget amounted to over $4.1 billion.) The minimum salaries of FSP personnel amounted to 2.27 billion,which was 77.8 percent of all minimum salaries.(3) The minimum salaries of FSP personnel increased by $618 million, or 37.3 percent over the period from 1976-77 to 1980-81, while the total actual salaries of school district personnel increased by $1.2 billion, or 54.1 percent for the period. Salary enrichment (the amount that actual salaries exceed the minimum salaries) averaged 19.7 percent in 1980-81, up from 11.5 percent in 1976-77. The salaries which can be identified as being paid entirely by the local districts (actual salaries of excess personnel plus the salary enrichment for FSP personnel) amounted to $935 million ($2,718,940 - 2,272,742 + 488,428 = $934,626) in 1980-81, up $508 million or 119 percent over the 1976-77 figure. Over the period shown the percent of salaries shared by the state(4) has declined from 73.6 percent to 66.1 percent of the total salaries. This decline is primarily due to the increased levels of both staff enrichment and salary enrichment.

---

(3) While the FSP category reflects 77.8 percent of the minimum salaries, it contains only 69.8 percent of the personnel. The difference is explained by the "best buy" selection process used for the FSP allocations. (This topic is addressed in the Addenda by the section entitled "Foundation School Program Personnel.") This fact is also reflected in the average minimum salaries of FSP personnel ($13,890) and excess personnel ($8,922).

Average Salaries

Table II-8 presents the state average salaries for different categories of personnel. These average salaries are also shown by Figure II-3. Several caveats should be considered when dealing with average salaries. It is recommended that the reader refer to the section in the Addenda which addresses average salaries.

TABLE II-8

** Data are not available for these categories because of the coding structure used prior to 1978-79.

These data represent the universe shown in Table II-1.

---

(4) Salaries shared by the state include the minimum salaries of FSP personnel and the actual salaries of state compensatory education and regional deaf personnel.

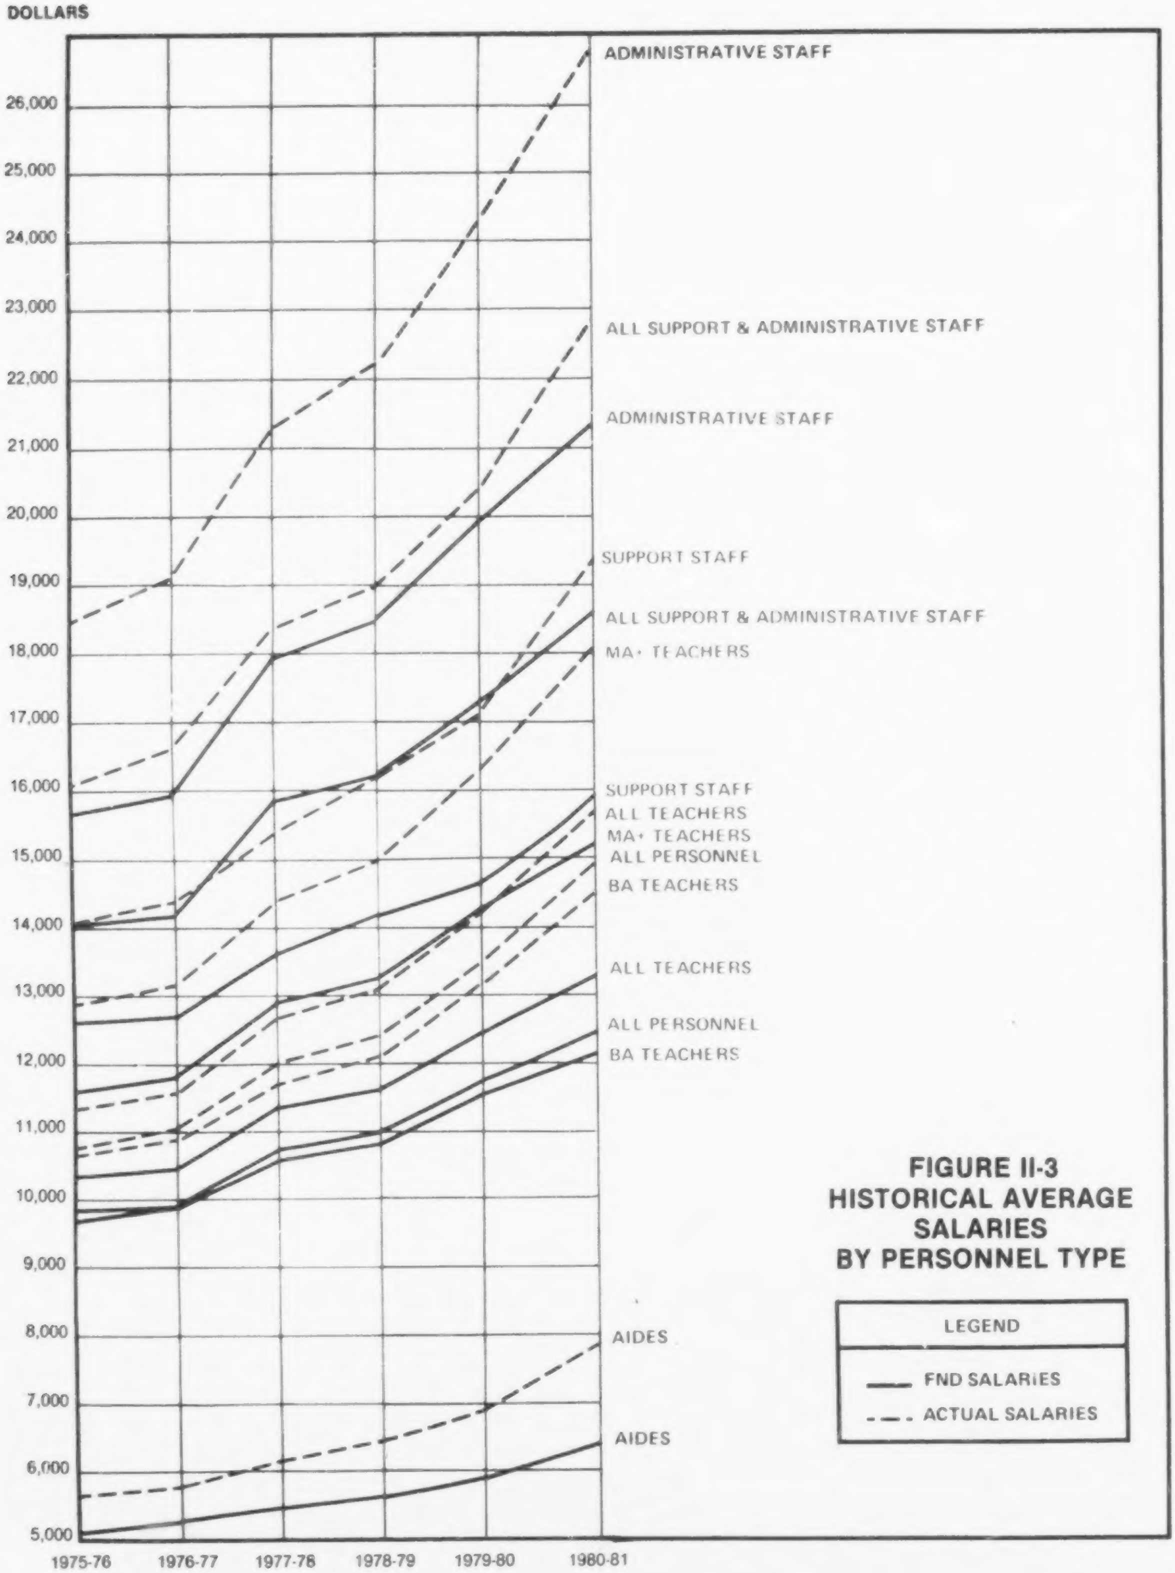

FIGURE II-3
HISTORICAL AVERAGE SALARIES
BY PERSONNEL TYPE

Historical Summary

Statewide trends indicate that school districts have significantly increased their expenditures for salaries. While some of the increases are attributable to inflation, another cause for these increases is due to the fact that the number of personnel has been increasing at a faster rate than the rate of increase in the student population.

The increasing salary expenditures have in many cases placed additional demands on the local tax resources. However, many of the local financial decisions were made during a period when property values had risen rapidly. On the other hand, during this same period of time, there was a major tax reform movement, evidenced in two important pieces of legislation. Senate Bill 621, enacted by the 66th Legislature, established new appraisal and reporting requirements. House Bill 30, enacted by the 67th Legislature, amended certain provisions of the property tax code and provided a method for taxpayers to limit tax increases through an initiative and referendum process. Consequently, some districts may be faced with the dilemma of escalating personnel costs and a resistance among voters to approve the necessary tax increases.

Additional Figures

The remainder of Section II consists of additional figures which graphically display some of the 1980-81 personnel data. The following figures reflect state totals for personnel by pay grade, years of experience, and tenure, along with salary enrichment and pupil/personnel ratios for districts with 15,000 ADA or more.

Example Interpretation:
Abilene has 11.1 students per staff member overall, or if Special Education personnel are excluded, Abilene has 12.5 students per staff member.

A - ADA/FTE Ratio for All Personnel

S - ADA/FTE Ratio Excluding Special Education Personnel

III. DETAILED TABLES

Data used to prepare most of the Section II analyses are contained in this section. Each table presents the data in the manner described below. An explanation of the columns in the Section III tables is presented on the following two pages.

TABLE	ORGANIZATION	DISTRICT COVERAGE	PAGE
III-1	TEA ANALYZE Report Categories	Regular FSP Districts Only	20
III-2	ESC Region Totals	All Active Districts	24
III-3	Regular FSP Districts with Estimated County Totals	Regular FSP Districts Only	27
III-4	Special Statutory and State Administered Schools and Education Service Centers	Special & State Districts & ESCs	139
III-5	Historical State Totals 1976-77 to 1980-81	All Active Districts *	142
III-6	State Totals by Pay Grade & Step	All Active Districts *	143
III-7	State Totals by Professional Status Code	All Active Districts *	149

NOTES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

ANALYZE report categories are district groupings used by TEA. See "Annotated Definitions of Terms" in the Addenda.

* Except the 22 State Administered Districts not funded under the Foundation School Program.

Explanation of Columns in the Section III Tables

I. Full-time Equivalent (FTE) Personnel

  A. Foundation School Program (FSP) - represents the number of personnel employed by the district who filled the Foundation School Program personnel allocations.

    1. Regular (column 1) - the number of FSP personnel employed in the regular program or general education.

    2. Special Education (column 2) - the number of FSP personnel employed in the special education program.

    3. Vocational Education (column 3) - the number of FSP personnel employed in the vocational education program.

    4. Total Foundation School Program (column 4) - the total number of regular, special education, and vocational education personnel.

  B. Excess (column 5) - represents the number of personnel who were eligible for the FSP allocations but were employed in excess of the FSP allocations. These personnel are paid entirely from local funds.

  C. Federal

    1. Title I (column 6) - represents the number of personnel employed with federal Elementary and Secondary Education Act (ESEA) - Title I monies. Although there are several Title I programs, these monies are targeted for districts with special student populations such as low income, migrant, handicapped, etc.

    2. Other Federal (column 7) - represents personnel employed from any other federal monies.

  D. State Compensatory Education (column 8) - represents personnel employed with state monies distributed to districts under the state compensatory education program. This program is targeted for educationally disadvantaged pupils who are eligible for federal compensatory education aid under the Title I programs.

  E. Other miscellaneous (column 9) - represents personnel reported either in the regional deaf program or as being paid with other non-federal monies.

  F. Grand Total (column 10) - the total number of full-time equivalent personnel reported on the Roster of Personnel.

II. Salaries

A. Total Salaries - represents the salaries the district reported for the grand total personnel shown in column 10.

1. Foundation (minimum) Salaries (column 11) - the salaries of the grand total personnel based upon the statewide minimum salary schedule.

2. Actual Salaries (column 12) - the total salaries the district reported.

B. Average Salaries

1. Foundation (minimum) (column 13) - the average salary per FTE, computed by dividing the total foundation (minimum) salaries by the grand total number of personnel.

2. Actual (column 14) - the average actual salary per FTE computed by dividing the total salaries by the grand total number of personnel.

C. Foundation (minimum) Index (column 15) - this index reflects the district's average foundation salary as a ratio of the state average foundation salary. The state average has been set to 100. For example, if a district's index for teachers were 110, it would signify that the district's average foundation salary for teachers was 10 percent higher than the state average. This measure is very useful in that, to a certain degree, it reflects the distribution of personnel or hiring practices of a district. Two factors which are used to determine a teacher's foundation salary are years of experience and college degree. Since the foundation salary is obtained from a statewide schedule, the example district has a personnel distribution reflecting more experience, more advanced degrees, or both.

D. Enrichment Percent (column 16) - the percent that the actual salaries exceed the foundation (minimum) salaries.

III. Pupil/Personnel Ratios (column 17)

- the number of students in average daily attendance divided by the number of personnel. Note that most tables exlude special education personnel from this calculation because of the data problems associated with special education co-ops. However, some statewide tables reflect two ratios: One excluding special education personnel and one including special education personnel.

PERSONNEL DESCRIPTIONS BY PAY GRADE

PAY GRADE 1: Educational Aide I
Educational Secretary I
PAY GRADE 2: Educational Aide II
Educational Secretary II
PAY GRADE 3: Educational Aide III
Educational Secretary III

PAY GRADE 4: Teacher Trainee I (Non-degree, Emergency Permit)
PAY GRADE 5: Teacher Trainee II (Degree, Emergency Permit Only)
Certified Non-degree Teacher
PAY GRADE 7: Bachelor's Degree Teacher
Librarian
Visiting Teacher
Special Education Related Service
Non-degree Vocational Education Teacher
Nurse, R.N.

PAY GRADE 8: Master's Degree Teacher
Librarian
Special Education Related Service
Vocational Teacher
Nurse (Master's Degree and Certificate)
PAY GRADE 9: Special Duty Teacher (Master's Degree)
Teacher (Doctor's Degree, LL.B, or J.D.)

PAY GRADE 10: Part-Time Principal (1 to 11 Teachers)
Instructional/Administrative Officer I
Supervisor
Counselor
Psychologist
Associate Psychologist
Diagnostician
Visiting Teacher (Master's Degree)
Occupational or Physical Therapists

PAY GRADE 11: Assistant Principal (20 or more Teachers)
Instructional/Administrative Officer II
PAY GRADE 12: Principal (19 or fewer Teachers)
Instructional/Administrative Officer III
PAY GRADE 13: Principal (20 to 49 Teachers)
Instructional/Administrative Officer IV
Administrative Officer IV
PAY GRADE 14: Principal (50+ Teachers)
Instructional/Administrative Officer V (401+ ADA)
Superintendent (Less than 400 ADA)
PAY GRADE 15: Superintendent (401 to 3,000 ADA)
Instructional/Administrative Officer VI (3,001+ ADA)
PAY GRADE 16: Superintendent (3,001 to 12,500 ADA)
Instructional/Administrative Officer VII (12,500+ ADA)
PAY GRADE 17: Superintendent (12,501 to 50,000 ADA)
Instructional/Administrative Officer VIII (50,000+ ADA)
PAY GRADE 18: Superintendent (50,000+ ADA)

IV. ADDENDA

Historical Background and Data Considerations

Although the format of the Roster of Personnel has shown little change in recent years, there have been other significant changes. Some of these are not obvious to the school districts and other users because the changes have occurred in the administrative system which processes the Roster of Personnel; other factors, such as changes in the Compensation Plan (statewide salary schedule) have indirect implications.

Due to the nature of the Foundation School Program personnel allocation formulas, not all classified personnel were reported on the Roster prior to 1975-76. Beginning with the 1975-76 school year the FSP personnel allocation formulas were changed to a personnel unit allocation basis, and the districts began to report aides, secretaries, and administrative staff who had not been previously included on the Roster of Personnel. For this reason, some historical data are not comparable prior to 1975-76.

In the 1977-78 school year, a companion personnel collection form, the Professional Personnel Assignment (PPA), was collected for the last time. Prior to 1978-79 all state-administered districts reported their personnel on the Roster. However, with the exception of Windham ISD, these districts no longer submit rosters. The primary reasons for this change are 1) most of the state school personnel were on the State of Texas salary schedule, and hence did not conform to the job classifications set forth in FSP laws; and 2) the districts were only receiving Available School Fund monies (i.e., their personnel costs were not covered under the FSP). These districts have been omitted from the historical totals for reasons of consistency (in 1977-78 these state districts reported 846 personnel). Windham ISD, county district number 236-903, is the only state-administered district which has its costs of operations paid from the Foundation School Program fund. Salaries of Windham's personnel are set at levels compatible with nearby districts. (For this reason, the foundation salary index for Windham is skewed.)

In 1978-79, sex and ethnic codes, previously on the PPA, were included on the Roster of Personnel. (Statistics on the sex and ethnicity of school district personnel are available in the Statistical Brief entitled "Personnel by Sex and Ethnicity for Texas Public Elementary and Secondary School Districts.") In addition, the professional status codes were consolidated and a new funding code was added.

In the 1978-79 school year Education Service Centers (ESCs) began to report personnel on the Roster. These personnel are employed by the ESC to fill FSP personnel allocations. These units are either units allocated for accreditation purposes, or special education units where the ESC is serving in the capacity of a special education co-op fiscal agent.

In 1979-80, a new set of professional status codes was implemented, providing more detail about the assignments of personnel. The professional status code for teachers reflects the teachers' major subject area.

Concept of the Full-Time Equivalent (FTE) Person

All personnel in this report are represented as "full-time equivalent" personnel (i.e., if two people each work half-time, together they represent the equivalent of one full-time employee, and are represented here as such). The number of individuals reported on the roster is approximately 246,300, which on a full-time equivalent basis is 234,334.

Types of Personnel

The district assigns each person on the roster a professional status code which indicates the person's job assignment or function, such as high school teacher, principal, counselor, etc.

For this report, all personnel have been summarized into three basic categories based upon the professional status codes. The category of aides includes educational aides and educational secretaries in pay grades one, two, and three. The category of teachers includes teachers with bachelors degrees, masters (or higher) degrees, plus non-degree teachers and teacher trainees. (Only 1,057 non-degree teachers and teacher trainees were reported, representing approximately one-half of one percent of the teacher category.) The category of support/administrative includes counselors, supervisors, librarians, principals, administrative officers, superintendents, etc.

Foundation School Program

The purpose of the Foundation School Program is to "guarantee that each school district in the state has adequate resources to provide each eligible student a basic instructional program suitable to his educational needs."(1) The cost of the Foundation Schoool Program is determined by formulas set forth in the Texas Education Code (TEC). The Foundation School Program cost includes minimum salaries of allocated personnel, maintenance and operations allocations, transportation allocations, equalization aid, and various other component costs. The program is financed by an equalized local tax effort, with the balance of the cost paid from state sources.

---

(1) Texas Education Code, Section 16.002

Foundation School Program Personnel

Under the state and local jointly shared Foundation School Program each district is allotted personnel units (PUs)(2) based upon its refined average daily attendance adjusted for the best five six-week reporting periods.(3)

The number of PU's earned by a district determines the number of personnel in the district whose minimum salaries will be used by the state to determine the Foundation School Program cost. Table IV-2 shows the factors which are used to determine each district's PU allotment. The personnel allocations determined by these factors may be increased by other formulas if the district meets specified sparsity, small schools, or minimum units criteria.

TABLE IV-2
GENERAL PERSONNEL ALLOCATION FORMULAS

Grade Span	One PU Per Every
PK, K-3	18.5 students
4-6	21 students
7-9	20 students
10-12	18 students

Texas has a "flexible" allocation system in that a district may use these personnel allocations to hire any combination of different types of personnel as long as any specified minimum standards are met.

Within this broad allocation framework, separate systems exist for determining personnel allocations for special education and vocational education. For special education, a district's entitlement is based upon formulas which take into account refined average daily attendance and the percent of these students who are identified as being handicapped. The district's actual allocation is based upon an application submitted by the district and these entitlement formulas.(4) The allocation system for vocational education is based upon an application system in which the district must show need, students, etc. The personnel which the district employs to fill these special education and vocational education allocations are converted to their personnel unit value (set forth with the salary schedule) and subtracted from the total personnel unit allocation the district has earned. The special education units are subtracted out at a quarter of their normal PU value, while the vocational units are subtracted at half of their normal value. The remaining personnel unit allocation is that which the district uses for its regular program or general education.

---

(2) The personnel unit (PU) is the standard measurement used for the Foundation School Program personnel allocation purposes.

(3) In districts having enrollments which include 10 percent or more children of migratory agricultural workers and fishermen, the best four six-week reporting period is used.

(4) In the case where two or more districts (typically small districts) jointly operate a special education program as a co-op, the district designated as the fiscal agent is allocated all special education PU's for the co-op. The fiscal agent reports all the special education personnel on its personnel roster. The fiscal agent also reports the salaries, revenues, and expenditures for the co-op, while the participating districts continue to report their own students. Each participating district is charged back its pro rata share of the PU's employed by the co-op fiscal agent (at the 25 percent rate). Needless to say, the fact that the personnel and fiscal amounts are not reported by the district which reports the students causes problems when one tries to make comparisons between districts.

The Texas Education Agency allocates the Foundation School Program personnel by taking all the eligible personnel reported on a district's personnel roster, sorting these personnel into a "best buy" sequence (based upon each person's salary per personnel unit value), and assigning the appropriate number of personnel into the Foundation School Program category. All remaining eligible personnel are then assigned to the excess category and must be paid from local funds. The corresponding foundation (minimum) salaries for all these allocated units become part of the jointly shared Foundation School Program cost.

Personnel Employed from Other Funding Sources

Personnel who are paid from local district monies who are eligible to be paid under the Foundation School Program but are determined to be employed above the district's FSP personnel allocations are considered to be "excess" personnel. Personnel considered to be ineligible for the FSP allocations include those paid from federal funds or other miscellaneous sources. Personnel employed under approved Title I programs are reported by districts under the Title I funding source. All other personnel employed with federal dollars are reported under the category "other federal."(5) All personnel paid with state compensatory education dollars are reported under the category of "state compensatory education." Regional deaf personnel and any other miscellaneous personnel are shown in this report under the category of "other personnel." The grand total represents all personnel in classified positions reported on the personnel roster by the district.

Statewide Minimum Salary Schedule

Section 16.056 of the Texas Education Code sets forth a salary schedule (compensation plan) and the authorized "classified" positions, pay grades, titles, and number of annual contract months for each position under the Texas

---

(5) 1978-79 was the first year for a separate funding code on the personnel roster. In prior years the professional status code in some cases served as the funding code, which left much to be desired. For this reason it is impossible to identify the funding source or function of some personnel. This is especially true of some of the federally funded personnel. The personnel whose funding source cannot be identified are included in the category of "other" personnel in the historical totals.

Public Education Compensation Plan. This section states that any employee who is qualified for and employed in a classified position must be paid at least the salary specified in the schedule. (This requirement applies to all personnel, regardless of their funding source.) This salary is known as the foundation or minimum salary. The salary schedule, comprised of 18 pay grades and 15 steps (steps 0 - 14), is a matrix of indices. These index values are converted to dollar amounts by the use of a multiplier, which was $1,048 per month for the 1980-81 school year. Each person is assigned to a pay grade according to the classified position in which he or she is serving. All aides and educational secretaries are assigned to pay grade one, two, or three. Teachers are for the most part assigned to pay grade seven, eight, or nine, depending upon their college degree. Support personnel are assigned to pay grades seven through 10, while administrative personnel are assigned to pay grades 10 through 18. All personnel are assigned to a step based upon their years of experience. Each person advances one step per year until step 10 is reached, and then advances one step every two years until the end of the schedule (step 14) is reached. Personnel who do not advance a step because of the two-year requirement receive an additional two percent increase in their minimum salary. The salary schedule also sets forth the personnel unit (PU) value assigned to each pay grade. Table IV-1 shows the 1980-81 salary schedule for pay grade seven.

Salaries Reported by School Districts

Two salaries are reported by the school district for each person. One is the required minimum or foundation salary. The other is the actual salary the district reports the person is paid. (These actual salaries are edited for reasonableness.) Although a district may develop its own schedule for actual salaries, these schedules are not collected by the Texas Education Agency.

The district's average foundation salary and average actual salary are computed by dividing the respective aggregate salaries by the total full-time equivalent personnel for that district. Several caveats should be considered when dealing with the average salaries:

- The district may not report the correct salary.
- All salaries are edited for reasonableness.
- Many factors determine each individual's salary, such as job assignments, pay grade, years of experience, number of months employed, degree, geographic area, etc. These factors are not evident in an average. To make a valid comparison of salaries between school districts one would have to consider personnel with similar qualifications, assignments, experience, etc.
- No consideration is made for any fringe benefits.
- Average salaries are greatly affected by a district's distribution of personnel in terms of both the types of personnel employed and the years of experience of these personnel. (The foundation salary index is a measure which gives an indication of this effect.)

The Section III tables contain two measures which have been computed to assist in the evaluation of salaries. The foundation (minimum) salary index reflects a district's average foundation salary as a ratio of the state average foundation salary. The state average has been set to 100. Since all foundation salaries are from the same salary schedule,(6) this index reflects both the distribution of personnel and those factors which affect the placement of personnel on the salary schedule, such as position (aide, teacher, or administrator) and experience. For example, the districts which have a higher than average number of low experience teachers will have a value of less than 100 for their teacher salary index. And districts which employ a relatively large number of aides and secretaries may have a low salary index for total personnel because the districts' average salary for total personnel will be influenced by the large number of aides. The second measure shown is the salary enrichment percentage, which is simply the percent that the actual salaries exceeded the foundation (minimum) salaries.

The Texas Education Agency does not collect any information on fringe benefits of personnel. The State of Texas does pay the employer's share of teacher retirement for all school district employees, with the exception of employees paid from federal sources. In 1980-81 the state paid into teacher retirement an amount equal to 8.5 percent of each person's salary, which amounted to approximately $367 million.

Pupil to Personnel Ratios

For the purposes of this report, a ratio of the number of students to the number of personnel has been computed for aides, teachers, support/administrative staff, and total personnel for each district. Unless stated otherwise, all special education personnel have been excluded from this calculation because of the data problems associated with special education co-ops. (Since all special education personnel for the co-op are reported by the fiscal agent, while the students participating in the program continue to be reported by the individual districts, fiscal agents would have an artificially low ratio, while co-op member districts would have an artificially high ratio.)

---

(6) The exception to this is the state-administered district, Windham ISD (236-903). As explained under "Data Considerations," Windham ISD's costs of operations, including salaries, are paid from the Foundation School Program Fund.

Annotated Definitions of Terms

ACTIVE SCHOOL DISTRICT: Any public school district which operates a school in the district each year. (See Section 19.246(b) of the *Texas Education Code*.)

ACTUAL SALARY: The total or entire salary reported for a person on the Roster of Personnel.

ANALYZE REPORT CATEGORIES: Special district groupings of data used for TEA school finance policy analysis. These categories are defined as follows:

1. MAJOR URBAN DISTRICTS: The largest school districts located within the central city of each of the state's six largest Standard Metropolitan Statistical Areas (SMSA's), (i.e. Austin, Corpus Christi, Dallas-Fort Worth, El Paso, Houston, and San Antonio). SMSA's are defined by the U.S. Bureau of the Census.
2. OTHER CENTRAL CITY DISTRICTS: Districts which are considered by TEA to be the "most central" to the state's remaining SMSA's.
3. SUBURBAN-FAST GROWING DISTRICTS: Generally, suburban districts of 1,000 or more refined ADA which grew at least 5 percent from 1970 to 1975, and some smaller suburban districts which displayed rapid growth for the same period.
4. SUBURBAN-STABLE DISTRICTS: Suburban districts which are similar to those in the previous category but which do not demonstrate high ADA growth rates.
5. NON-METRO WITH 1000+ ADA DISTRICTS: Districts which have 1,000 or more refined ADA and which are not included in the previous categories.
6. NON-METRO WITH TOWN DISTRICTS: Districts which have less than 1,000 ADA and which encompass a town having a population of approximately 1,000 or more.
7. RURAL DISTRICTS: Districts which have less than 1,000 ADA and which have no central town within their boundaries.

AVAILABLE SCHOOL FUND: State money for public education derived from interest on the Permanent School Fund, plus twenty-five percent (25%) of certain tax revenues such as gasoline, oil production, etc. The Available School Fund is distributed according to a district's prior year ADA.

AVERAGE DAILY ATTENDANCE (ADA): This general designation is used to refer to a group of attendance measures which include the following:

1. GROSS ADA: The aggregate days attendance divided by the number of days school is in session. Kindergarten pupils attending a half-day session earn a half-day's attendance for the school district.

2. REFINED ADA: The aggregate days attendance of eligible students divided by the number of days school is in session. Refined ADA is equal to gross ADA less ineligible ADA, and is used to determine the allocation of funds for state maintenance and operations, equalization aid, etc.

3. ADJUSTED REFINED ADA: The aggregate days of attendance divided by adjusted days of operations for the best five six-weeks reporting periods (four for migrant schools). Adjusted refined ADA is used only for personnel unit allocations.

4. INELIGIBLE ADA: Those students who do not meet the eligibility requirements set forth in the "Daily Register of Pupil Attendance." Generally, these are students who are non-residents or who are under or over the prescribed ages as of September 1.
    a. UNDERAGE:
        1.) Under 6 years old (Grade 1 and above) and not previously enrolled in an out-of-state school during the current school year.
        2.) Under 5 years old (kindergarten).
        3.) Under 3 years old (Special Education, Early Childhood Program).
        4.) From birth - Visually and Auditorially handicapped
    b. OVERAGE:
        1.) 21 years old (Regular Program).
        2.) 22 years old (Special Education).

AVERAGE SALARY: The aggregate salaries of a set of personnel divided by the number of full-time equivalent personnel in the set. Average salaries may be computed for both foundation salaries and actual salaries. If not specified, the term average salary refers to the average actual salary.

BEST BUY: The method used to determine which eligible personnel will be allocated as Foundation School Program units. Each person's minimum salary is divided by the PU value for his or her pay grade; the personnel with the highest values are allocated. This procedure results in an allocation most advantageous to each district.

CLASSIFIED PERSONNEL: Personnel serving in positions set forth in Section 16.056 of the Texas Education Code. These personnel must be paid not less than the minimum salary set forth in the Texas Public Education Compensation Plan.

COMPENSATION PLAN: The statewide minimum salary schedule set forth in Section 16.056 of the Texas Education Code. The salary schedule, comprised of 18 pay grades and 15 steps (steps 0 through 14), is a matrix of indices which are converted to dollar amounts by the use of a multiplier. In 1980-81 the multiplier was $1,048 per month.

COUNTY-DISTRICT NUMBER: A six-digit TEA code which uniquely identifies each Texas school district. The first three digits identify the county in which the district administrative offices are located. The last three digits identify the type of district as follows:

000 thru 099 - Common School District
701 thru 799 - Rural High School District
901 thru 949 - Independent School District
950 - Regional Education Service Centers

EDUCATION SERVICE CENTER (ESC): A special intermediate level agency established to provide planning, coordination, and other special services to public school districts within a defined geographic region of Texas. (See Sections 11.32 and 11.33 of the Texas Education Code.)

ENRICHMENT: This term may refer to salary enrichment or staff enrichment. In a general manner, enrichment refers to the use of local tax dollars to supplement the Foundation School Program.

EXCESS PERSONNEL: Personnel paid from local funds who were employed above the Foundation School Program allocations.

FOUNDATION SALARY: The salary specified in the statewide minimum salary schedule.

FOUNDATION SALARY INDEX: An index which reflects a district's average foundation salary as a ratio of the state average foundation salary. The state average has been set to 100.

FOUNDATION SCHOOL PROGRAM (FSP): A program of state government financial assistance created "to guarantee that each school district in the state has adequate resources to provide each eligible student a basic instructional program suitable to his educational needs." Under the FSP, eligible districts receive state monies for minimum salaries of personnel, current operating expenses, categorical program aid, and transportation services. The amount of state aid is based on the district's ability to support its public schools. (See Sections 16.002 and 16.004 of the Texas Education Code.)

FULL-TIME EQUIVALENT (FTE): A measure for personnel reporting purposes whereby part-time personnel have been converted to an equivalent number of full-time personnel. In the simplest case, if two teachers each work half time, together they are the equivalent of one full-time teacher. The computation for determining the FTE amount of any employee is:

$$\text{FTE} = \frac{\text{Number of days employed X Percent of day worked}}{\text{Maximum days authorized}}$$

MINIMUM SALARY: The salary specified in the salary schedule set forth in Section 16.056 of the Texas Education Code. See the definition of Compensation Plan.

NON-CLASSIFIED PERSONNEL: Personnel who are not serving in positions authorized under Section 16.056 of the Texas Education Code. Non-classified personnel include maintenance personnel, school lunch room personnel, bus drivers, substitute teachers, etc.

ORIGINAL ENTRIES: The number of pupils entering Texas schools for the first time during the current school year.

PAY GRADE: One of the 18 levels of the salary schedule. Classified positions are defined for each pay grade.

PERSONNEL ALLOCATION: The number of personnel units whose minimum salaries will be shared by the state under the Foundation School Program.

PERSONNEL CATEGORIES: These are the three personnel groupings used throughout this report and they are defined as follows:

1. TEACHER: A person instructing students in a public school in one or more subjects, and who has a valid Texas teaching certificate or emergency permit.
2. SUPPORT & ADMINISTRATIVE:
   a. SUPPORT: Those persons who provide a particular service to the school body and/or staff. Librarians, nurses, supervisors, and counselors comprise the majority of this category.
   b. ADMINISTRATIVE: Any person who is involved in the management of finances, personnel, and/or students in a school. Examples are principals, administrative officers, and superintendents.

3. AIDES & SECRETARIES: A person in pay grade one, two, or three who is involved in either administrative or instructional support. These personnel are generally considered to be non-professionals.

PERSONNEL UNIT (PU): The standard measurement used for Foundation School Program personnel allocation purposes. A personnel unit value is assigned to each pay grade by Section 16.056 of the Texas Education Code. This value represents the charge against the district's personnel allocation for any person utilized to fill the district's allocation. The term "personnel units" is also used to denote the personnel allocation of a district under the Foundation School Program.

PROFESSIONAL STATUS CODE: A number or code intended to designate the general assignment of each employee. From this code the personnel category (teacher, administrator, support, or aide) can be determined.

PUBLIC SCHOOL DISTRICT: A governmental jurisdiction created under state law for the general purpose of providing an education to all eligible students who enroll in its schools or educational programs. (See Chapter 19 of the Texas Education Code.)

"REGULAR FOUNDATION SCHOOL PROGRAM (FSP)" PUBLIC SCHOOL DISTRICT: A district created under general statutory authority which is eligible for state funding assistance under the Foundation School Program. These districts have geographic boundaries with corresponding property values, as well as taxing authority. They are administered by a locally elected school board.

SALARY ENRICHMENT: The amount that the actual salary exceeds the foundation (minimum) salary.

SALARY SCHEDULE: The statewide minimum schedule or compensation plan set forth in Section 16.056 of the Texas Education Code.

"SPECIAL STATUTORY" PUBLIC SCHOOL DISTRICT: A district created by special legislative act but not administered by a state government agency. Examples of this type of district are the public schools associated with military bases near San Antonio and the Masonic Home schools in Fort Worth.

STAFF ENRICHMENT: Personnel who were eligible for the Foundation School Program personnel allocations, but who were employed in excess of the FSP allocations. These personnel are paid from local funds.

"STATE-ADMINISTERED" PUBLIC SCHOOL DISTRICT: A district created by legislative act which is both funded and administered by a state government agency. Most of these schools are administered by the Texas Department of Mental Health and Mental Retardation or the Texas Youth Council. In addition, the Department of Corrections operates Windham Schools and the University of Texas System operates Moody ISD, the district associated with the UT Medical Branch Hospital in Galveston. The State Schools for the Deaf and Blind have been under the Texas State Board of Education, but were placed under the control of independent boards beginning in the 1981-82 school year.

STATISTICAL UNIVERSE: The complete collection of persons or other units of study to which the findings and conclusions of a statistical analysis apply.

STEP: This term refers to any of the 15 subdivisions (steps 0 - 14) of the salary schedule reflecting experience increments. Personnel with no experience begin at step 0 and advance based upon years of experience acquired. Personnel in steps 10 through 13 who do not advance because of the "2-year requirement" receive an additional two percent in salary.

Explanation of Abbreviations

ADA - Average Daily Attendance
CSD - Common School District
ESC - Education Service Center
FND - Foundation (or minimum)
FSP - Foundation School Program
FTE - Full-Time Equivalent
ISD - Independent School District
PPE - Per Pupil Expenditure
PPR - Professional Personnel Roster
PU - Personnel Unit
RHSD - Rural High School District
SMSA - Standard Metropolitan Statistical Area
TEA - Texas Education Agency

Technical Notes

ROUNDING: All FTE totals have been truncated to the lowest whole number, while the salary totals have been rounded to the nearest thousand. Consequently, the detail may not sum to the report totals.

DISTRICTS REPORTING: Data for 1,075 of the 1,099 active districts in 1980-81 are presented in this survey as well as data for all of the twenty Regional Education Service Centers. Most of the non-reporting districts are state-administered.

COUNTY ESTIMATES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964; EXECUTIVE ORDERS 11246 AND 11375; TITLE IX, 1973 EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; AND VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED IN 1974.

It is the policy of the Texas Education Agency to comply fully with the nondiscrimination provisions of all federal and state laws and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any programs or activities which it operates on the grounds of race, religion, color, national origin, sex, handicap, age, or veteran status (except where age, sex, or handicap constitute a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency makes positive efforts to employ and advance in employment all protected groups.

LESLIE P. MARTINICH, Systems Analyst I

This *Statistical Brief* was produced by LESLIE P. MARTINICH, who revised the analysis and addenda sections as well as the computer programs which generated the tables, charts, and text.

FOREWORD

The *Statistical Brief* report series is designed to provide timely statistical information on Texas public elementary and secondary education. Each report addresses a specific area and will be released as soon as possible after the data are officially added to the TEA Data Base. Education topics in this series include student enrollments and attendance, revenues and expenditures, professional personnel and salaries, and Foundation School Program information.

This report series is unique in two ways. First, the reports were designed to include information most frequently requested from the TEA Data Base. Those who need these data should find this series very useful. In addition, the *Statistical Brief* tables and text are computerized. This capability permits rapid update of the reports and will improve the accuracy of the report information.

The *Statistical Brief* reports are intended to meet the Texas public education information needs of education administrators, policymakers, researchers, and the general public. Although the basic nature of the information in the *Statistical Briefs* should meet the education data needs of the foreseeable future, the contents and format of the reports are flexible. Formats may be altered to meet the demand for new educational data as laws and State Board of Education rules are changed, new issues emerge, or the general need for information moves in a new direction. *Statistical Brief* users are encouraged to submit suggestions toward improving the reports.

Raymon L. Bynum
Commissioner of Education

FALL SURVEY OF STUDENTS IN TEXAS PUBLIC ELEMENTARY AND SECONDARY SCHOOL DISTRICTS 1981-82

I. INTRODUCTION

This report contains statistics on students by ethnicity, sex and grade collected during the fall of the 1981-82 school year by the following TEA report:

Fall Survey of Pupils in Membership, Fall 1981

The statistical universe for this annual data collection is all students in membership in Texas public elementary and secondary schools on the last day of the first six-weeks attendance period. Hereafter, this document will be referred to as the Fall Survey. The number of public school districts actively operating schools in 1981-82 was 1,099. This Statistical Brief presents information for all active districts.

Principal authority for collection of fall membership data is Civil (Court) Action 5281. These data are also used to complete reports requested under the National Center for Education Statistics Common Core of Data (CCD) program (41 U.S.C. 252(c)(5). Fall Survey student data are routinely used for TEA planning and decision making. They are also used to estimate the number of students to be tested by the Texas Assessment of Basic Skills (TABS) program each spring.

II. SUMMARY DISCUSSION

Fall Survey data show an increase of 7.2 percent in the total number of students in the past 10 year period (an average annual growth rate of .78 percent), with a decline in the number of white students and an increase in the number of minority students (see Table II-3). The data also show an uneven distribution of minority students among the state's public school districts (see Table II-4).

Fall Membership Ethnicity by FSP District Status, 1981-82

Texas public school districts reported 2.9 million students in membership in the fall of the 1981-82 school year. Regular Foundation School Program (FSP) districts reported the majority of the students with special statutory and state-administered districts accounting for 21,201 students, less than 1 percent of the total. Table II-1 summarizes the 1981-82 fall student count for ethnic categories by type of district.

Fall Survey Student Ethnicity and Sex by Grade Level, 1981-82

Tables II-2a and II-2b present the state total of students for each grade level, broken down by ethnicity and sex. They also show the enrollment, for each grade level, in special education programs. In 1981-82, 71.5 percent of public school students were enrolled in elementary grades PK through 8; 28.5 percent were enrolled in secondary grades 9 through 12. Pre-kindergarten reported the highest percent of minority students (59 percent) in 1981-82; first grade reported the largest number of minority students (122,901).

Changes in Fall Membership, 1972-73 to 1981-82

Table II-3 presents student ethnic count and percent data contrasting 1972-73 with 1981-82. Minority enrollment increased by 244,780 students, while the number of white students decreased by 46,739. The net total increase from 1972-73 to 1981-82 was 198,041 students. Hispanic increases alone accounted for 8 out of 10 minority students added during this period. Asian student membership showed the greatest percentage increase (627 percent) during this ten year period. The American Indian student membership grew by roughly a third over the same period. For the ten year period, minority membership increased from 38.6 percent of the total in 1972-73 to 44.3 percent in 1981-82.

Annual Changes in Fall Membership

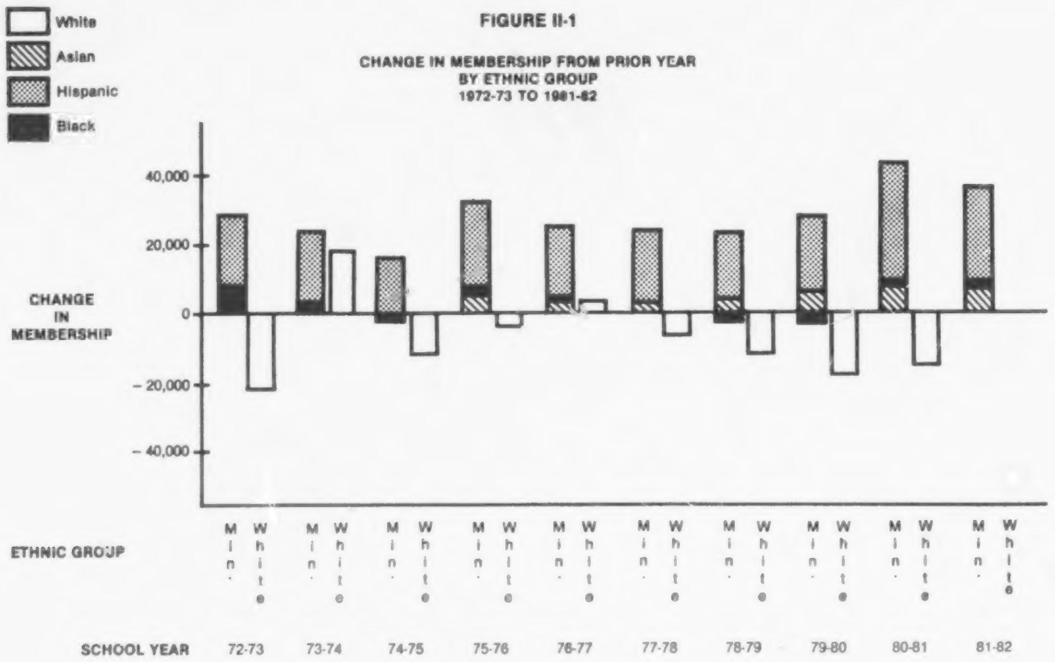
The number of 1981-82 students in membership increased 36,105 over the prior year. Hispanics increased by 29,689, while white membership declined by 200. The number of blacks increased by 585; the number of Asians increased by 6,149; and the number of American Indians decreased by 118. Figure II-1 illustrates the annual changes in membership for the past 10 years. Figure II-2 shows that four out of five white students attended districts which had a percent of white students higher than the statewide average. Of all Hispanic students, 75 percent (621,348) were counted in the 317 districts which had a higher than average Hispanic percent. Of all black students, 80 percent were concentrated in 249 districts. Asian and American Indian students, though fewer in number than Hispanics or blacks, were even more concentrated. Of all Asian students, 84 percent were in membership in only 84 districts, while 96 percent all of the small American Indian student population was concentrated in 298 public school districts.

Distribution of Ethnic Membership in Texas Public School Districts, 1981-82

White and minority students were not as a whole evenly distributed among the state's public school districts in 1981-82. Overall, 7 out of 10 districts had above average concentrations of white students and below average concentrations of minority students. Minority students were concentrated in relatively few districts. Table II-4 shows that 27 districts reported no minority students, while six districts reported no white students.

FIGURE II-1

CHANGE IN MEMBERSHIP FROM PRIOR YEAR
BY ETHNIC GROUP
1972-73 TO 1981-82



NOTE: Min. — Minority (all groups other than white). Annual changes for some ethnic groups were too small to be shown on this chart.

Final Analysis

Statewide historical trends show that Fall Survey enrollment has increased annually with some fluctuations in the annual percentage increase. In 1973, fall membership increased 1.61 percent from the previous year (a gain of 44,020 students, attributable to the addition of a regular half-time kindergarten program), while in 1974 the increase was only .11 percent (a gain of only 3,145 students). For the past two years the percentage increase has remained relatively high: .93 percent from 1979-80 to 1980-81; 1.25 percent from 1980-81 to 1981-82.

A comparison of Fall Survey first grade enrollment with the number of Texas births (with a six year time lag) indicates that first grade enrollment is increasing faster than Texas births. For example, in 1976 there were 5,000 more first graders enrolled in Texas public schools than had been born in Texas 6 years earlier. In 1979, there were nearly 20,000 more, and in 1981 there were 33,000 more. A similar comparison of Hispanic first grade enrollment with Hispanic births in Texas indicates that there has been a consistently greater number of Hispanic first graders than Hispanic births. The Hispanic excess of enrollment over births has accounted for approximately 60 percent of the total excess in the past two years. Also, the number of recorded births in Texas has increased from 210,787 in 1974 to 273,433 in 1980. The trends clearly indicate that migration as well as the increase in the number of births will cause a continuation of the growth in Texas public school enrollments in the years to come.

III. DETAILED TABLES

Data used to prepare the Section II analysis are contained in this section. Each table presents the data in the manner described below.

TABLE	ORGANIZATION	DISTRICT COVERAGE	PAGE
III-1	TEA ANALYZE Report Categories	Regular FSP Districts Only	8
III-2	ESC Regions	All Active Districts	9
III-3	Regular FSP Districts with Estimated County Totals	Regular FSP Districts Only	10
III-4	Special Statutory and State-Administered Schools	Special & State Districts Only	48
III-5	Historical State Totals 1969-70 to 1981-82	All Active Districts	49

NOTES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

ANALYZE report categories are district groupings used by TEA. See "Annotated Definitions of Terms" in the Addenda.
